TEMPUR®

TRUE, RESTFUL SLEEP WITH TEMPUR®

Great sleep is vital to us all. It's important for our health, development and wellbeing. And we know too many people still don't get the sleep they need.

At TEMPUR®, our purpose has always been to improve the sleep of more people every night, all around the world. That's why, since inventing the world's first viscoelastic mattress and pillow more than 30 years ago, we've gone on to innovate and develop a full range of leading sleeping products. And with our unique healthcare and medical heritage, we truly understand the importance of a good mattress and pillow to deliver better sleep.

Now, with the all new TEMPUR Pro® SmartCool™ range, we've taken our revolutionary sleep technology even further. Taking comfort and support to a whole new level to transform the sleep of people worldwide. So whether you toss and turn, or sleep with pain and discomfort, or sleep too hot, we have just the right solution for you. Because, when you spend one third of your life sleeping, you should settle for nothing but the best.

BORN FROM SPACE AND PERFECTED FOR SLEEP

The only mattress brand recognised by NASA[1] and certified by the Space Foundation[2]

At the heart of each mattress and pillow we create is our iconic TEMPUR® Material, born from NASA technology. In the late 60s, NASA scientists invented a completely new material that was then used onboard the Space Shuttles.

Our founders realized the material's unique potential. So they took that original NASA invention and spent years perfecting it into TEMPUR® Material and created the world's first viscoelastic mattress and pillow.

First proving its value in the healthcare sector, TEMPUR® is now found in bedrooms around the world, transforming the sleep of millions. It's why we're the only mattress brand which was recognised by NASA for improving the quality of life for humankind[1]. This honour sets us apart, keeps us humble and inspires us to continually innovate, for sleep that's out of this world - and it all started with those original NASA scientists.

[1]The company and its products were recognised by NASA. At a joint press conference on May 6, 1998, NASA recognised TEMPUR®'s outstanding achievements in adapting the original NASA technology for everyday use and improving the quality of life for humankind."

TEMPUR® MATERIAL IS LIKE NOTHING ELSE ON EARTH

The name TEMPUR® reflects our material's temperature-sensitive nature. It's both viscous and elastic. A unique combination achieved by billions of ultra-sensitive cells that adapt to your body's unique shape, weight and warmth.

With TEMPUR® Material, you experience a sensation completely unique to you. It precisely aligns and conforms to every inch of you, relieving pressure from sensitive areas, including your shoulders, back, hips and joints for pure comfort and support throughout the night. It even absorbs motion from you or your partner, so you're less likely to disturb one another.

How TEMPUR® Material works is complex, but what it does is simple, helping you get that true, restful sleep.

MADE IN DENMARK

Our TEMPUR® mattresses and pillows are produced at our factory in Aarup on the island of Funen. They are tested, produced and packed with great focus on delivering the best possible quality to you.

During the sixty hours it takes to create a single TEMPUR® mattress, we perform sixty-seven different quality checks.

The TEMPUR® factory in Aarup is over 55,000 square meters (8 football pitches); employs 350 employees; and manufactures, sells and supplies TEMPUR® to more than 92 countries worldwide.

MADE IN DENMARK

HANDMADE IN OUR BED FACTORY

At TEMPUR® we believe in quality, which is why our TEMPUR Arc™ beds are handmade at our bed factory in Estonia.

Every TEMPUR Arc™ bed frame is constructed from sustainably-sourced wood for a durable, sturdy bed. All of our beds are upholstered by hand with high-quality fabrics, so your bed will continue to look and feel amazing for many years to come.

OEKO-TEX® STEP CERTIFIED

The OEKO-TEX® STeP certification means that our products are manufactured using environmentally friendly processes and under socially responsible working conditions. It provides for a holistic consideration of manufacturing conditions from a sustainability point of view and encompasses analysis and assessment in six core modules:

OEKO TEX® STeP 21000025 DTI

- Chemicals management
- Environmental performance
- Environmental management
- Social responsibility
- Quality management
- Health protection and safety at work

These core modules are rated and scored in three different levels. We are proud to say that we have obtained the highest score, level 3 (Ideal implementation in the sense of Best Practice examples) in all six modules. We also require our primary suppliers to be OEKO-TEX® STeP certified.

INDOOR CLIMATE CERTIFIED

TEMPUR Pro® mattresses feature the Danish Indoor Climate Label.

A product certified and labelled under the Danish Indoor Climate Labelling scheme has been subject to extensive testing that ensures the products do not adversely affect indoor air quality.

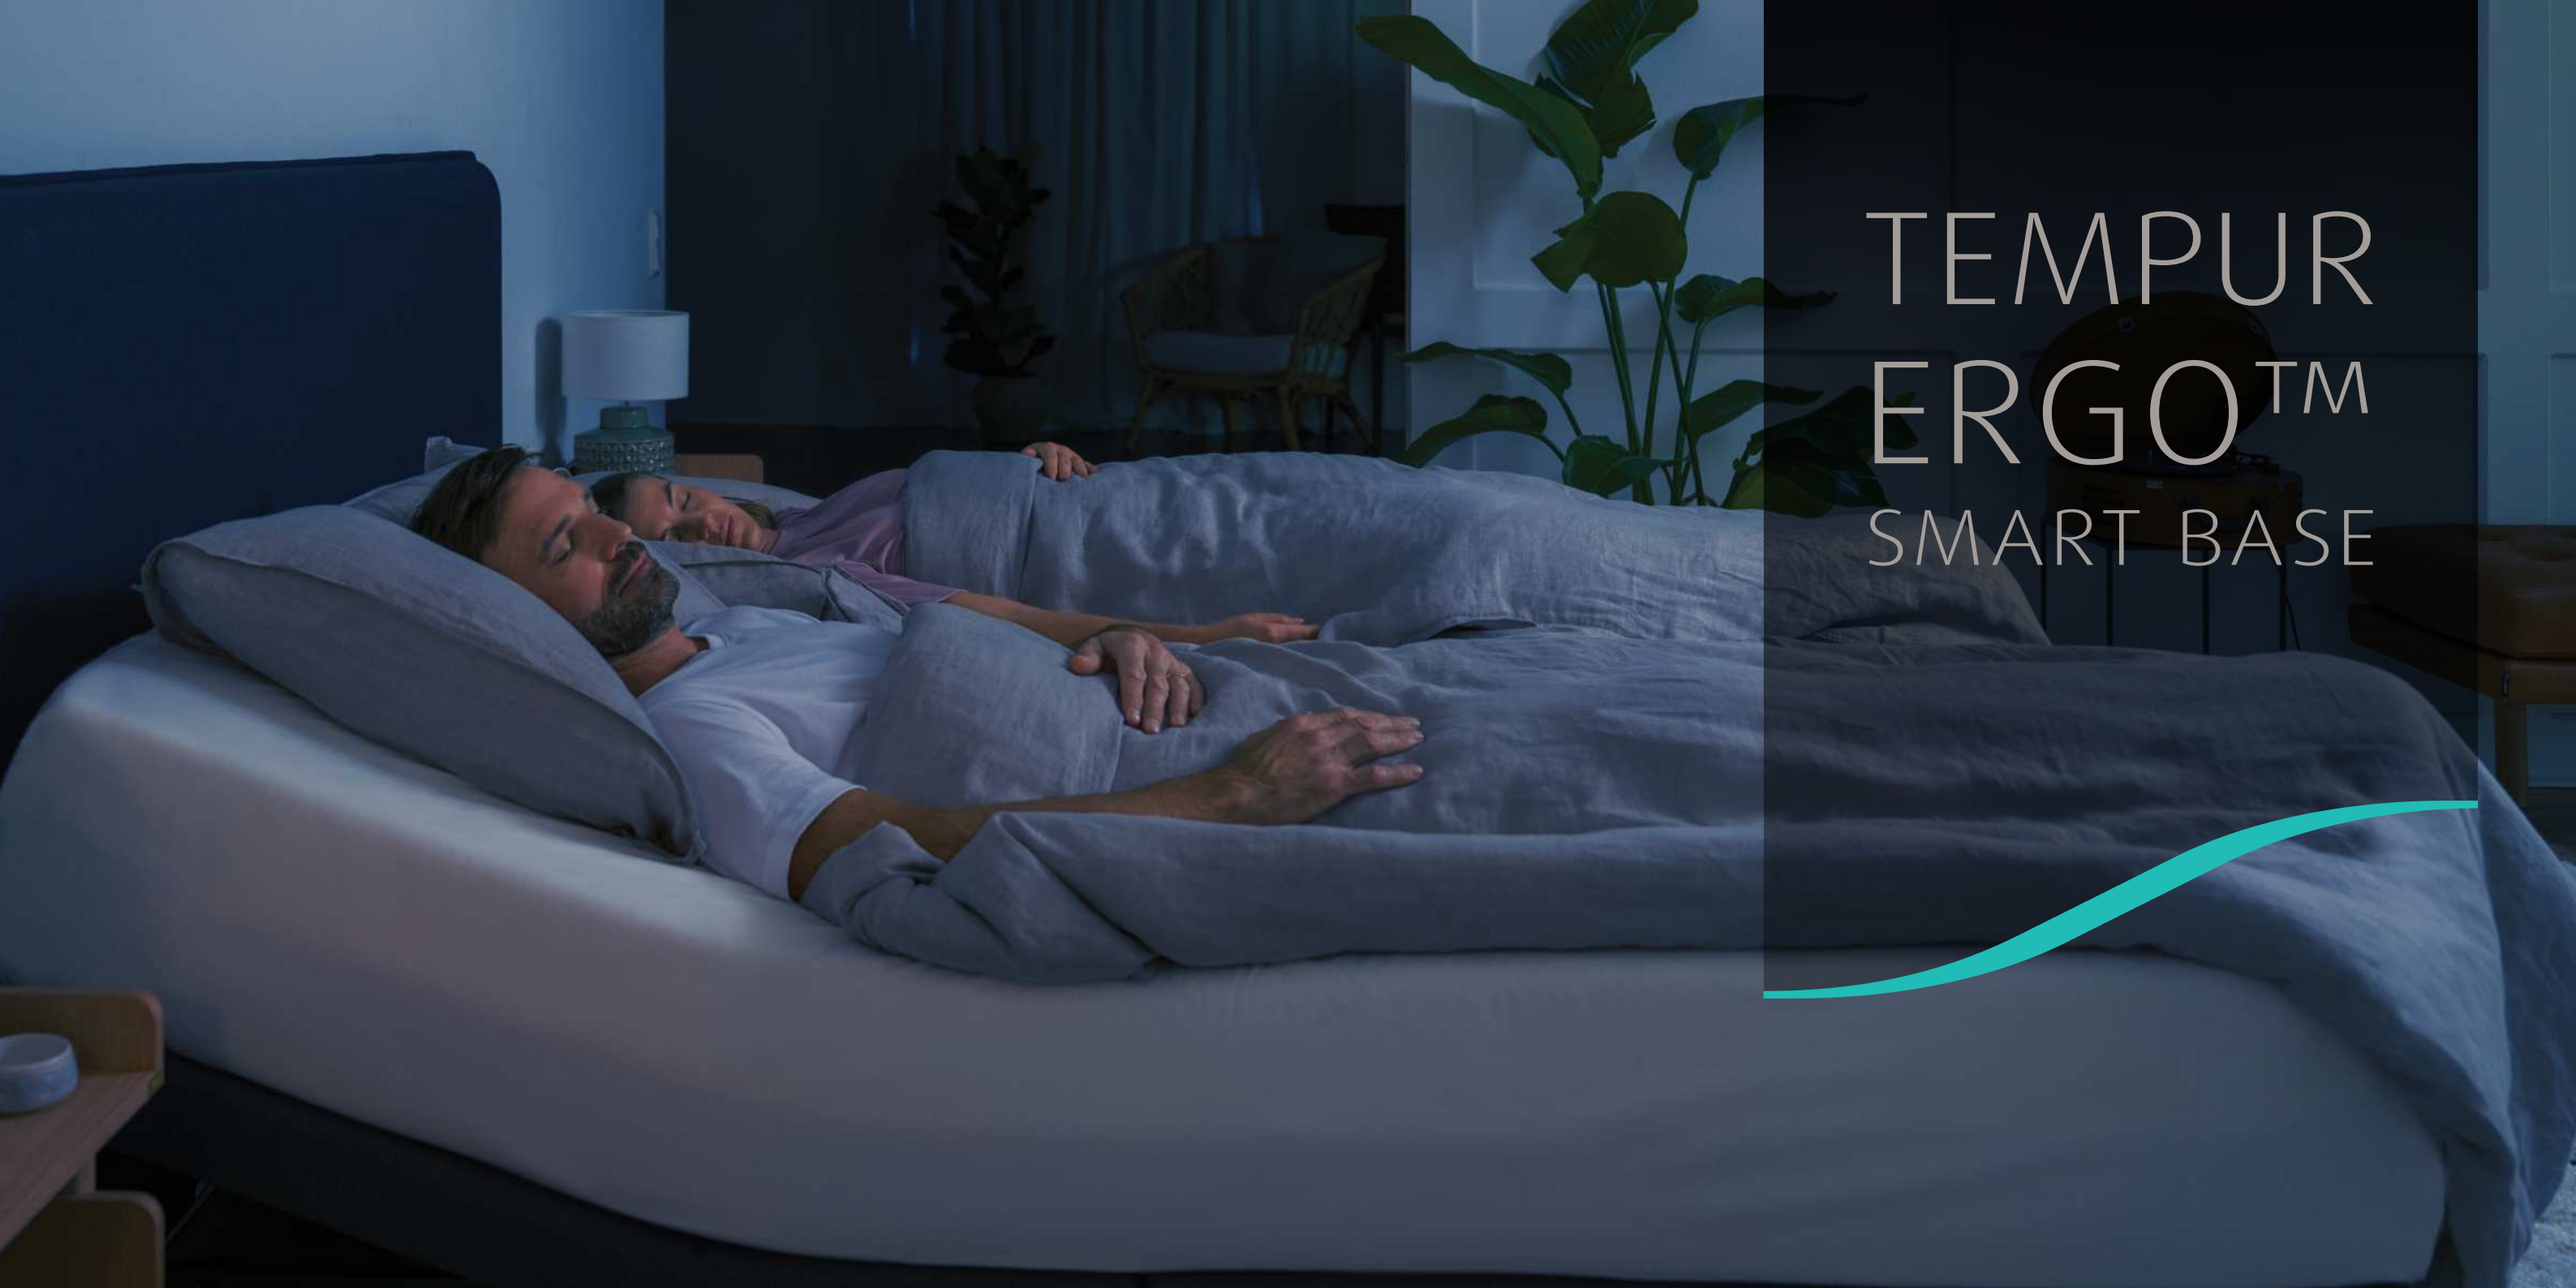
TEMPUR Arc™ Disc Ottoman Bed Base

The best of storage and support

The TEMPUR Arc™ Disc Ottoman Bed Base combines the comfort of our revolutionary disc bed base with the practicality of storage. The underbed storage net can hold up to 10kg worth of items, making it a great way to store extra bed linen or your seasonal wardrobe. Plus, the discs in the bed frame flex with your body and come in firmer and softer variations, which can be rearranged to fit personal preference. Spacing between the discs ensure the right level of airflow for mattress ventilation.



TEMPUR ERGO™

SMART BASE

TEMPUR Ergo™ Smart Base - Our Smartest Bed Ever

In many markets around the world, a partner who snores is the number 1 cause of disturbed sleep.

Experience your most restful sleep ever, with the smart response to snoring.

The all new TEMPUR Ergo™ Smart Base utilises integrated Sleeptracker®- AI sensors (without a microphone) to detect you and your partner's micro-vibrations from snoring.

If snoring is detected, the bed automatically responds, elevating your upper body 12 degrees- a position to help reduce snoring in otherwise healthy individuals.

The TEMPUR Ergo™ Smart Base also works in conjunction with any TEMPUR® mattress.

TEMPUR Ergo™ Smart Base - Personalised Sleep Coaching

Discover the power of intelligent sleep technology and advanced and accurate analytics with the TEMPUR Ergo™ Smart Base. Via an easy-to-use app, it offers you customised insights and coaching to help you get more out of your sleep than ever before.

- The TEMPUR Ergo™ Smart Base is powered by the highly advanced Sleeptracker®-AI.
- Discreet integrated sensors monitor how you sleep: heart rate, sleep stages (light, deep and REM sleep cycles).
- Nothing to wear, update, or disrupt your sleep.
- The technology analyses your personal sleep behaviour using AI and machine learning.
- The app compares your individual behaviours to the data of 250 million nights of sleep.
- Every night you use it, the app gets smarter with personalised insights and advice.
- AI-powered coaching can show you how you sleep and how you can get better sleep moving forward.
- Highly accurate sensors can detect and track two sleepers individually and discern between humans and most domestic pets to capture reliable individual data every night.
- The app provides daily reports on any snoring that occurs, any wake ups in the night, plus gives an analysis of your heart and breathing rates.
- The app tracks and reports on your sleep environment: room temperature, humidity and air quality.

Smart Home Connectivity

For the ultimate in smart sleep and wellness tracking, the Sleeptracker-AI® monitor works with Google Home and Amazon Alexa to connect with your smart home. Use simple voice commands to hear your sleep quality rating, coaching tips, and more.

How did I sleep last night?
You can ask your smart home device to give you your sleep report every morning.

How can I sleep better tonight?
Using your Sleep Score, along with sleep tracking information and daily habits you input, it can provide coaching tips for sleep better.

Ok Google, Goodnight!
With a simple command - and smart home enabled devices like door locks and lights - you can adjust your bed to your preferred position, turn off lights and lock doors without leaving the comfort of your bed. You can even wake up to fresh brewed coffee with a connected coffee maker.

PILLOWS

HOW TO OPTIMISE YOUR SLEEP WITH THE RIGHT PILLOW

Optimise your sleep by choosing the TEMPUR® Pillow that helps support your body in its neutral position. Here is a brief guide on choosing the right TEMPUR® Pillow for your needs.

First, consider your sleeping position. Whether you sleep on your back, side or front, or if you turn from side to side, choose from pillows in the range specifically designed to match how you sleep.

When it comes to size of your pillow, we suggest matching your upper body size, then considering whether you need to size up or down. For a smaller body size with a shorter neck-to-shoulder distance, a smaller pillow choice would be beneficial, while for a larger body size with a longer neck-to-shoulder distance, a larger size pillow may be more ideal.

For those who sleep on their front, the TEMPUR Ombracio™ pillow is ideal for front sleepers of all shapes and sizes, thanks to its unique cloverleaf design.

Next, look at the firmness of your mattress. The softer it is, the more you will sink in, so you will more likely need a smaller pillow. If you like a firmer mattress, then a larger size pillow could be beneficial.

TEMPUR Original SmartCool™

The TEMPUR Original SmartCool™ pillow gives you the ultimate feeling of tailored support and cooling comfort.
