Twist™ Roller Blinds

Distinctive ambiance and privacy control in one

Amazing addition to existing window coverings

Two sliding layers of fabric with sheer horizontal strips. This is the hallmark of Luxaflex® Twist™ Roller Blinds, a contemporary addition to existing styles of window coverings. It's an amazingly simple and effective method for choosing just the right amount of incoming light and privacy.

Luxaflex® Twist™ Roller Blinds are custom made just for you, up to a maximum width of 2.75 metres (fabric specific). Installing roller blinds next to each other makes it possible to cover larger areas. This window covering looks particularly spacious because, depending on the style chosen, the strips can be adjusted to the same height.

5820

Exclusive fabrics to match any interior

Our extensive collection of exclusive fabrics offers you many options, so your Luxaflex® Twist™ Roller Blinds can join your interior in perfect harmony. The collection has everything from amazingly attractive uni colours to delightfully decorative fabrics.

5820

Symphony

You can opt for refined voiles or a silky fabric with a lovely luxurious feel in the open strips. Alternatively you can choose fabrics with special structures and striped patterns, or the Symphony with stripes in three different shades. Whatever you decide, the quality will be the very best.

The collection also includes fire-resistant fabrics. Your dealer will be able to help you make the right choice with our extensive collection book, which contains examples of the many dozens of fabrics available.

5808

Easy to use, with a fine finish

It goes without saying that high quality Luxaflex® window coverings guarantee years of smooth use. They are made to exacting standards. The Twist™ Roller Blinds operating mechanism is tastefully styled and very easy to use.

5819

5819

The level of transparency and incoming light can easily be adjusted using the metal chain control. You can also raise blinds completely, and optionally add a crank rod or motor control too.

The bottom rail is styled in aluminium with rounded caps at the ends. The system is designed for face fixing as standard, but optional ceiling installation is also possible. As an option it is exclusively available in a delightful aluminium design with pearl chrome finish and white, grey or black features, as shown above.

Luxaflex® has been a feature in the world of window coverings and sunblinds for over 60 years. Thanks to its ability to anticipate new trends in interior design and satisfy all your functional requirements, Luxaflex® is a fitting solution for any window. Whatever product or style you choose, Luxaflex® is a guarantee for lasting quality, innovation, optimal home comfort and years of pleasure.

You will find plenty of inspiration at www.luxaflex.com as well a dealer near you, who will be able to give you expert advice and guide you round our extensive collections.

Venetian Blinds

Create light control and privacy with this design classic

Luxaflex[®]

Designed by Luxaflex[®]. Inspired by you.

Couture Collection: These new exclusive designs re-invent the traditional image of venetian blinds with subtle designs and tactile structures that create a unique style for windows.

Venetian Blinds

Choose from subtle designs to bold and beautiful textures

The new Luxaflex® Venetian Blind collection offers beautiful light control with a stunning range of fashionable colours, rich textures and exclusive designs to transform any window with a style that is completely your own. Quality is the hallmark of Luxaflex® Venetian Blinds, which are made with highly resilient aluminium slats that won't lose their shape.

There are 5 slat widths available. For every window size this product offers unique solutions.

“I love the plush white texture, it brings warmth and softness”

Designed with safety in mind

Operating options

Our LiteRise® cordless system lets you raise and lower your blind with just one touch providing increased safety for young children with a smart, uncluttered look.

LiteRise® operating system

Download the free Layar App

Scan this page

Discover interactive content

Our Top Down / Bottom Up offers the most versatile operating system for light control and privacy. Simply operate your blind from the top or

bottom or a combination of both with convenient button operation for tilting the slats to adjust light and privacy.

Sustainable materials

Sustainability is key factor in the Luxaflex® Venetian Blind collection which is made from 98% recycled aluminium and designed to the highest quality standards. Our venetian blinds enhance thermal efficiency and light control. A choice for durability without compromising on quality.

Double your view

MegaView® Venetian Blinds offer you that extra view and privacy control that you might be looking for. These blinds close like a normal venetian blind, but when you open it, a MegaView® view is presented, by doubling the view through to the outside whilst maintaining privacy when closed or tilted. Operation options now include chain and motorization.

Wood design accent in tassel and tilt rod

Slat featured in the design of the bottom rail

Decorative options

Ellisse® combines an exclusive design with the practical functionality of a venetian blind. The sleek design features colour coordinated slats, bottom rail and tassel/tilt rod creating a super stylish look for windows. Choose the contemporary style of our 50 or 70 mm slat design and personalize with a wide choice of decorative fabric tapes. You can even combine aluminium slats with warm wood design accents for a unique style statement.

“Beautiful design with a trendy style that suits me!”

For truly exceptional, fully **customised** and reliable window coverings, Luxaflex® is the perfect choice.

With over 60 years' experience, Luxaflex® is committed to providing you with an **unrivalled** selection of products, fabrics, materials and colours for your **comfort** and **pleasure**. All covered by a **five-year guarantee**.

Vertical Blinds

Elegant simplicity for larger windows

Luxaflex[®]

Designed by Luxaflex[®]. Inspired by you.

PVC

Vertical Blinds

Modern and attractive designs for large windows

The new Luxaflex® Vertical Blind collection offers a wide range of opportunities to control the amount of light and privacy in your home. With their sleek style, vertical blinds are ideal for contemporary interiors, large windows, sliding doors and even shaped windows. The collection offers an endless range of colours, patterns, fabrics and rich textured transparencies. Complete with aluminium and PVC slats, which are also available in perforated versions,

this collection offers almost unlimited possibilities.

“Besides colour, light control was a major requirement”

Vertical Blinds

Vane width

Fabric, aluminium and PVC vanes are all available in a variety of widths. Depending on the material and your personal preference, you can choose slat widths from 50 mm up to 250 mm.

A personal, playful and striking effect is created by choosing a combination of vanes in a vertical blind. For example, a plain material combined with a patterned fabric in the same colour.

Mono Operation

With only 1 control chain you can tilt and slide the vanes. This simple to use control is now offered as standard on Luxaflex® Vertical Blinds.

127 mm fabric

70 mm aluminium

Aluminium

Sustainable materials

Sustainability was a key factor in the production of this collection. There is even a PVC-free material with 'Cradle to Cradle' certification which can be recycled and reused. A fabric with the Cradle to Cradle certification is a great endorsement for your interior!

Luxaflex® aluminium slats are made from 98% recycled aluminium. A choice for durability without compromising on quality.

“What a great look -
stylish, warm
and durable”

Luxaflex® vanes

250 mm

250 mm vanes are stylish, practical and give a powerful and contemporary look to your interior. They combine the functionality of vertical blinds with the warm, modern look of panel blinds.

If you choose Luxaflex® 250 mm vanes, you can also add a personal touch with Finishing Options, an exclusive, contemporary addition of aluminium and wood trims.

Luxaflex® has the perfect solution for every room.
A window covering **tailor-made** for you - it's the perfect choice!

With over 60 years of experience, Luxaflex® is guaranteed to provide you with sustainable quality, innovation, optimum **living comfort** and years of **pleasure** from using our products. We have a collection of products, fabrics, materials and colours which is **unsurpassed** by our competitors. Custom-made with a **five-year guarantee**.

Designed by Luxaflex®. Inspired by you.

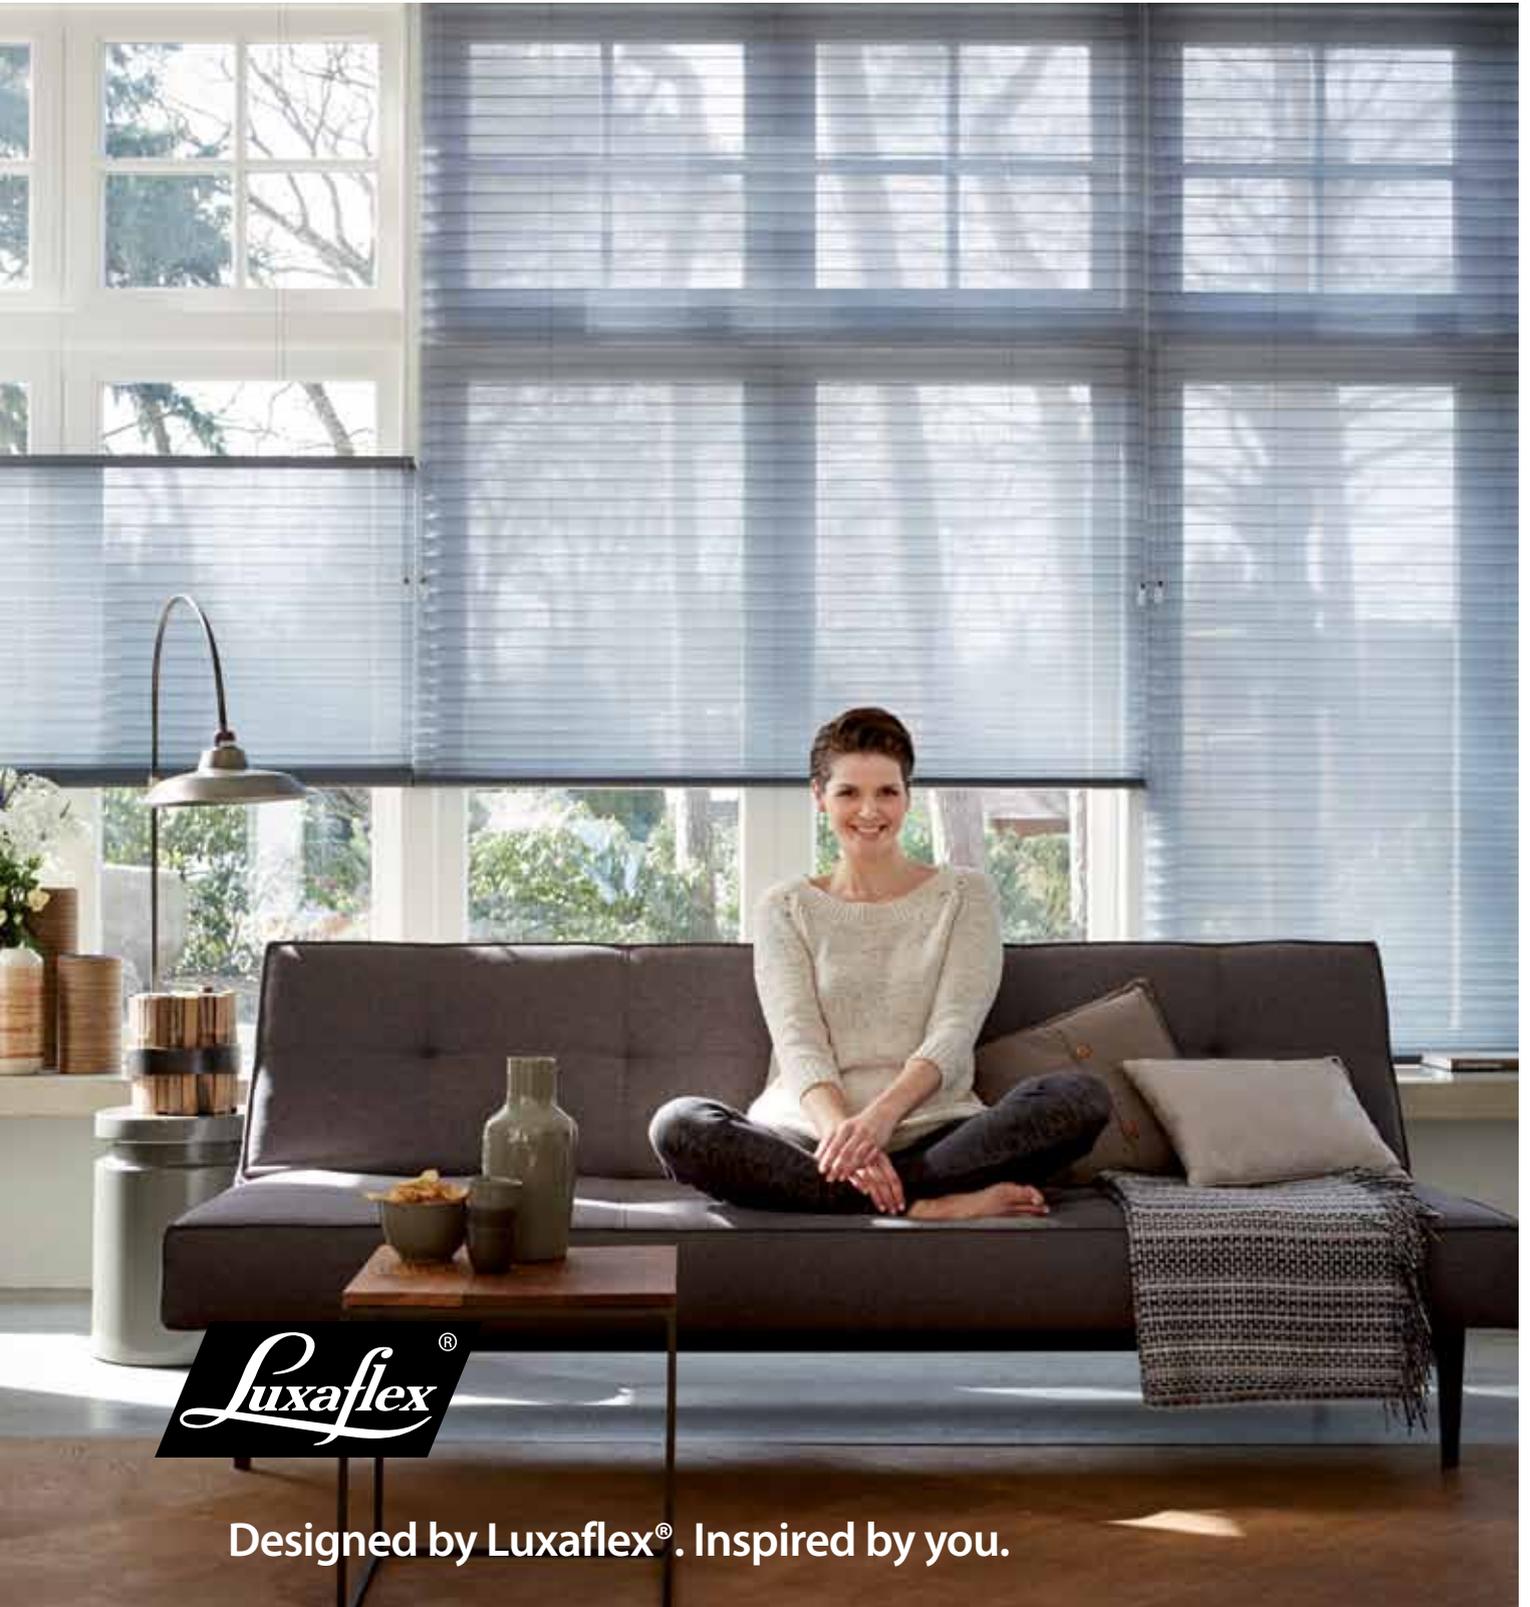

Visit your local **Luxaflex® dealer** where you can find all of the latest products. They will guide and advise you in making your decision. You can also find out about their measuring and fitting service, so your choice perfectly meets your needs.

Duette® Shades

Filtering light and insulating your home all year round

Luxaflex®

Designed by Luxaflex®. Inspired by you.

Duette® Shades are perfectly suitable for the office, giving it a warm and stylish look.

Duette® Shades

An extensive choice of fabrics to control light and privacy as desired

Duette® Shades are available in a wide assortment of beautiful fabrics, rich structures and colours in three transparencies. They give beautiful pleat pattern to windows of various shapes.

There are three pleat widths available, each best suitable for a specific window size.

“Both colour and light control are equally important to me”

Special operating options

The revolutionary Luxaflex® SmartCord® operating system uses a retractable cord mechanism, is simple to operate and designed to provide optimal comfort. The constant cord length means that you will no longer have to put up with those long, dangling cords.

The LiteRise® operating system is cordless and easy to operate via the bottom rail. You can position it at any height you like.

SmartCord® operating system

Colour coordination

The Duette® Batiste fabric allows you to hang the same colour in all three transparencies. Depending on the level of privacy that you desire and the

amount of incoming light you want, you can choose a different transparency in every room.

Sustainable fabric

Sustainability was a key factor in the production of this collection. Luxaflex® is contributing to a sustainable and healthy environment by the careful selection of raw materials and method of production, as well as re-using fabrics whenever possible. The Eternity fabric, which is made from 40% polyester waste, accentuates this. Available in a 25 mm pleat width.

Energy saving & acoustic properties

Duette® Shades insulate in the summer and the winter. The still air layer in the cell works like an insulating blanket. The three still air layers of the cell-in-cell Architella® construction offer even better insulation.

Most of the heat lost in houses is through the windows, even when double glazed. Duette® Shades offer a unique combination: energy-saving window coverings that add atmosphere to the home at the same time. Furthermore they tangibly improve the acoustics in a room.

Duette® Shades are in the highest energy-saving categories of Luxaflex® and bear A to AAA labels.

“Not just beauty,
but also
comfort
in both
summer and
winter”

For truly exceptional, fully **customised** and reliable window coverings, Luxaflex® is the perfect choice.

With over 60 years' experience, Luxaflex® is committed to providing you with an **unrivalled** selection of products, fabrics, materials and colours for your **comfort** and **pleasure**. All covered by a **five-year guarantee**.

Facette® Shades

Soft fabrics for subtle light control

2142

The elegance of fabric; the *ease-of-use* of a shade

With its alternating vanes of opaque and translucent woven fabric, Luxaflex® Facette® Shades create a unique soft effect allowing light to penetrate gently into your home. The clean, space-saving design offers the convenience of a shade, complemented by the beautifully understated elegance of textile composition.

The attractive shades combine the stylish warmth of textured fabric vanes and the simplicity of a window covering that can be raised or lowered in an instant. Sliding the opaque and translucent sections past one another allow you to choose the perfect balance of privacy and light at any moment of the day. Available in a range of contemporary and diverse colours - and even in up-to-date trend tones - Facette® Shades are designed to blend in harmoniously with your style and furnishings.

New vane sizes and colour range

Stylish and timeless, Facette® Shades are now available in three vane widths to suit your windows, your room size and your outside view. You can also select your favorite colour from our new range designed to offer a choice of subtle tones for each vane width. To ensure that your Facette® Shades provide the best in contemporary design, the collection will be regularly updated with additional trend colours.

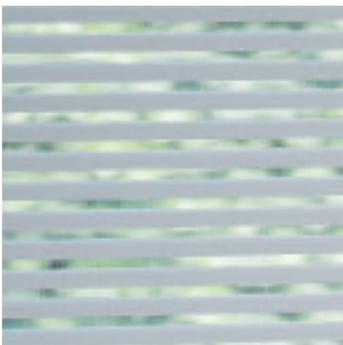

2134

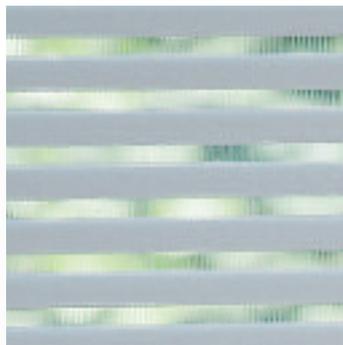

2134

New!
Vane sizes
& colours

NEW! Small (4 mm): slim elegance for even clearer view-through

Medium (7 mm): suitable for almost every size and shape of window

NEW! Large (14 mm): a strong, spacious style for larger windows

Made to suit every window

With its new vane widths, Facette® Shades now offer you more possibilities than ever before. Will you select the ultra-slim new 4 mm (S) vane, the popular 7 mm (M) vane or the dramatic new 14 mm (L) option? Consider the proportions of each window you are dressing, and simply choose the width that best balances the overall effect.

Colours to match your home

You can choose the tone that best suits your interior from a contemporary and diverse range of 16 main colours plus 1 trend colour. The collection will regularly be updated with one or more colours that reflect the latest fashion and design trends.

The stylish finishing touch

The fittings on Facette® Shades are colour-matched to your choice of fabric, unless you prefer to personalise your shade with stylish white or anodized aluminium fittings. The vanes can be opened or closed using a slim, matt stainless steel chain. Another new attraction is the elegant new white cord weight, with a silver metal cord weight available as an alternative option.

Easy to use

You can open or close the fabric by sliding the translucent and opaque woven sections past each other using the single control chain. The shade can be raised or lowered in both the fully open and closed positions.

High quality

The innovative Facette® Shades fabric is made of high-quality fire-retardant 100% Trevira CS yarns for peace of mind.

Choose Luxaflex® Window Styling for a unique quality product with a five-year guarantee.

Luxaflex® Window Styling offer a wide range of attractive window coverings with an extensive choice of materials, colours, designs, finishes and control options. Your dealer will ensure that your Luxaflex® products are tailor-made to your requirements, and that they are delivered to your home quickly and reliably.

Luxaflex[®]

window styling

Silhouette[®] Shades

Gentle translucency for an endless variety of moods

Subtle balance between incoming light and privacy

With the ingenious construction of Silhouette® Shades you are choosing soft fabric vanes that seem to float between sheer facings. They allow you to subtly filter the incoming light in your home and determine the degree of privacy. The unique fabric construction prevents a disturbing watered effect so you can enjoy optimal views.

The number of colours in the collection has been expanded and Silhouette® Shades now suit any interior. In addition to white, ecru and beige you can now choose from a wide range of colours. A variety of structures are also available, including a screen-like fabric with 25% better heat prevention, fabrics with a silk-look and dim-out fabrics. With three vane widths (50, 75 and 100 mm), Silhouette® Shades are suitable for every size of window and in every interior. Another advantage is that: the harsh effect of ultraviolet light, which causes discolouration of furniture and wooden floors, is strongly reduced by Silhouette® Shades. With the vanes open, a UV protection of up to 88% is achieved and protection increases up to 99% when closed.

Abundant *choice* of colours and fabrics

With Luxaflex® Silhouette® Shades you can choose from a large range of beautiful fabrics that can be divided into seven qualities. Every group has its own character, but they always feature a soft construction of fabric vanes suspended between two sheer facings.

The head box and bottom rail are available in three colours (white, cream and silver) to colour coordinate with the fabric, including the lift cords and cordweights. Of course you can choose a different combination.

New!

Sunscreen

Compared with the Originale, this fabric has 25% more heat prevention when open. The coloured sheer offers calm views. Available in 75 and 100 mm vane widths, with a coloured sheer on the front and a coloured, screen-like sheer on the back.

New!

Matisse

Matisse offers a choice from a wide palette of warm colours as well as black and charcoal. Made in a coloured sheer on the front and a white sheer on the back. Available in 75 and 100 mm vane widths.

Originale

Originale is a classic. It is made in a series of soft white tints, available in all vane widths: 50, 75 and 100 mm. White sheer on both the front and back.

New!

Silk

Silk has the structure of raw silk. Available in 75 mm vane width, made in white sheer on both the front and back.

Toujours

Toujours looks like natural linen. Available in vane widths of 50 and 75 mm, with white sheer on both the front and back.

Bon Soir Originale

Bon Soir Originale is the well-known classic in dim-out fabric. Available in all vane widths, with a white sheer on both the front and back.

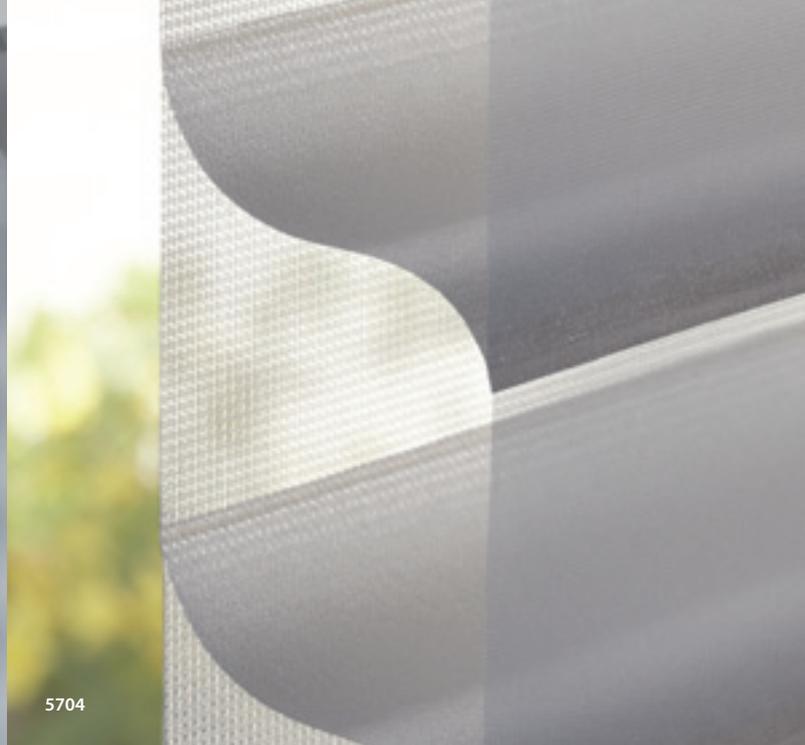

New!

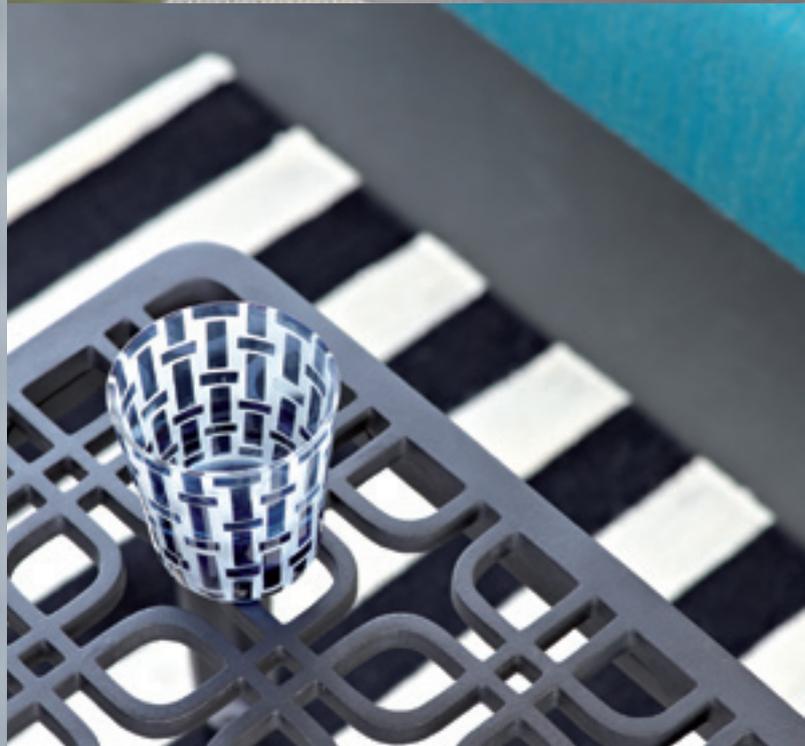

Bon Soir Matisse

Bon Soir Matisse bids you good evening with four deep colours from the Matisse range in dim-out fabrics. Available in 75 mm vane width with coloured sheer on the front and white sheer on the back.

5704

3225 - UltraLift™

Light as a feather operation

Silhouette® Shades can be operated comfortably in three ways. Silhouette® Shades are supplied with a continuous cord loop for raising or lowering the shades and for tilting the vanes.

UltraLift™ is a revolutionary cord mechanism for raising and lowering the shade, and for tilting the vanes. It has a clean-cut look and is safe for children because there are no loops.

5704 - PowerRise®

New!

It can be even easier. The almost silent PowerRise® operation is easy to install and easy to programme. You can operate up to 16 products on one remote control via radio signals. It requires no wiring. A practically invisible infrared cell activates the motor with battery supply. Ultimate operating comfort: you do not have to get up or interrupt your activities. You can operate your Silhouette® Shade with a press of the button. Silhouette® Shades with PowerRise® offer the perfect solution for difficult-to-reach places and are safe for small children because they do not have trailing cords. As an alternative to batteries, you can choose a motorised Silhouette® Shade with a 24V motor, switch or remote control.

For more than 60 years Luxaflex® has been a household name in the area of window coverings and blinds. By anticipating the latest trends and by taking account of all your functional requirements, Luxaflex® has an appropriate solution for every window. No matter what product or style you choose the Luxaflex® brand name guarantees long-lasting quality, innovation, maximum comfort inside your house and years of pleasure.

At www.luxaflex.com you will find plenty of inspiration. There you will also be able to locate dealers in your area, who are able to provide professional advice and will familiarise you with our extensive collections.
