our **mission**

Everyone has different needs when it comes to sleep.

So in a nation of 60 million sleepers, one-size-fits-all just won't do. It won't do at all.

That's why we think sleepers before springs.

And spend our lives making beds that work for everyone.

Every need, want, whim, shape, size and sleeping position.

No sleeper too tricky. No problem too far.

We're here to help everyone everywhere get the best out of bedtime.

**And to help the nation sleep better,
one city, one town, one sleeper at a time.**

proud to be **market leaders** in **sustainable sleep solutions**

It isn't just about a great night's sleep for all; it's about making sleep greener, to bring you an incredible comfort that won't cost the planet.

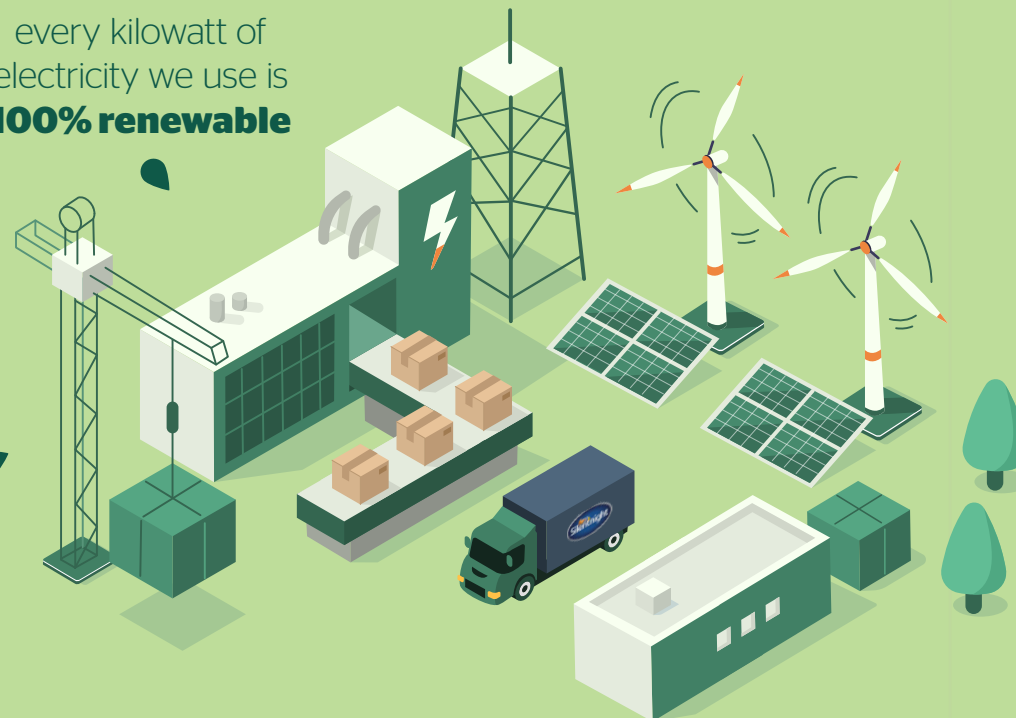

We are proud to be market leaders in sustainable sleep solutions and have put sustainability at the heart of our product development for many years.

**we've reduced
fuel & energy consumption
in our factory**

every kilowatt of
electricity we use is
100% renewable

**CO2 emissions
cut by 1 million kilos**

our manufacturing site
sends **ZERO to landfill**

Silentnight is a **Carbon Neutral Plus Organisation**

Silentnight has done this by offsetting more carbon than we produce. This initiative goes beyond the requirements for being carbon neutral and provides a wider environmental benefit. This year, our offsetting activity will involve tree planting in the UK & Kenya, supporting deforestation reduction in the Amazon, supporting renewable energy projects in India and providing fuel efficient cooking stoves in Guatemala.

with **tree-planting**
and **renewable
power projects**
at home and worldwide

we've also
**reduced our carbon
emissions by 49%**
in the past **4 years**

**sourcing 70% of
our raw materials**
from our home in the
North of England
