HEADBOARD
BASE

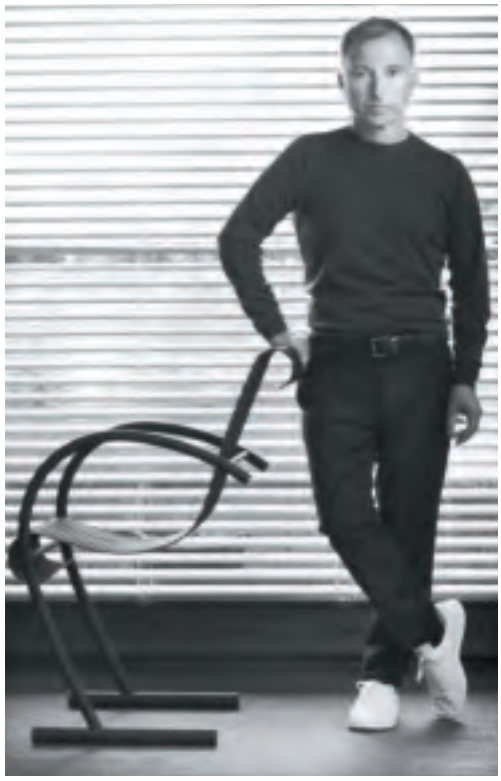

We stand at the gates of a new era. It is time to place Beauty back at the centre of our lives. Let's build a new sense of Harmony that has the scent of the Mediterranean and champions the lifestyle which blossomed on its shores and has yet to be equalled. The point of departure is our history. Let's use it to imagine a brand-new future.

Pasquale Mastrangelo

Tony Chambers is a Creative Director, Design Consultant and Editor.
He is the founder of multidisciplinary creative agency TC & Friends and Co-Chair of Brainstorm Design, Fortune magazine's design & business conference.
Tony is the editor and creative director of the definitive monograph of designer Paul Smith, published by Phaidon.
He sits on the board of the Barbican Art Centre and the Whitechapel Galleries Ventures board.
From 2003 to 2018 Tony served as Editor-in-Chief and Creative Director of Wallpaper* magazine, for which he still contributes. He also served as Art Director of British GQ and Art Editor of The Sunday Times Magazine.He has twice been named the PPA Designer of Year and twice Editor of the Year by the BSME. In 2015 he was the recipient of the Mark Boxer Award for outstanding services to the Publishing Industry – the most prestigious honour in British publishing.

It's a great pleasure to introduce the 2021 Natuzzi catalogue. During my many years at the helm of Wallpaper* magazine, the transformation in the positioning of Natuzzi as a brand stands out as one of the most interesting and brightest moments.

Natuzzi is a brand that oozes style, passion and authenticity. A design brand that is unique in its outlook and unique in its output and this is due to one main reason – the passion and dedication of the owners – the Natuzzi family.

All great brands are sustained in some way by their history. By their story. And what a great story there is behind Natuzzi. I know it well because it was told to me a few years ago by Chief creative officer Pasquale Junior and one image has stayed with me since. That of his father, the Founder and CEO, setting off from Apulia on a journey of discovery across America in the early 80s at a time when he spoke very little, if any, English. Driven by a mix of ambition, curiosity and bravery, Pasquale worked his way through the many huge furniture fairs, trade shows and show rooms and was struck by a distinct lack of variety, colour and flair. He was convinced that the World would love what Natuzzi could offer.

Fast forward to today and it is clear that Pasquale Junior has inherited that same passion, curiosity and drive. In the short time I have known him he has transformed this hugely successful furniture maker into the hugely successful directional lifestyle brand we see presented so exquisitely across the pages of this catalogue.

It is a collection that speaks of harmony and a blend of design influences. It is international in flavour but still very much rooted in the culture and values of Apulia. Produced by designers with very different approaches and experiences – it is indeed a special blend.

It is all about the harmonious blending of tradition with modernity. The blending of craftsmanship with innovation, of form with function, sustainability with glamour, and comfort with style.
This entire collection highlights Natuzzi's great propensity for innovation, which is a key cornerstone of the brand, while remaining faithful to tradition and to its own roots. It demonstrates and displays the vast know-how of Natuzzi craftsmen and their ability to develop complex and varied projects with great skill and sophistication.

For me, it also exemplifies a blending of Natuzzi's rich past, present and future. And on this evidence, the future looks really exciting.

Tony Chambers

natuzzi knows how

Creating value for everyone while respecting everyone. A foray into the ethics of harmony.

The pursuit of harmony – in design and life in general – is the dream that has shaped our actions since as far back as 1959. Harmony in the sense of the right balance between body and mind, mankind and nature, and between different peoples and culture; a means to enrich and complete one another, just as has been happening for thousands of years not only in our "Mother Land" – Apulia – but also all over the Mediterranean where a perpetual intermingling has generated boundless beauty and a lifestyle that continues to be an inspiration for many. One that is unrivalled still today in many different ways. With all of this in mind and without betraying its own DNA, Natuzzi Italia decided to carry over this sense of harmony into the world of interior décor, bridging the gap between a contemporary aesthetic and functionality, materials and colours, and between textures and graphic designs in a quest to create spaces and dwellings which emanate balance, elegance and beauty from every pore. Harmoniousness which is underpinned by aesthetic research and anchored by unassailable deeply rooted values – ethics, transparency and sustainability. And in order to ensure that these values are respected and that quality standards exceed customer expectations, Natuzzi Italia has chosen to control the whole production chain, right the way down to actual delivery.

A hub of international excellence and experience, the Natuzzi Style Center lies at the heart of everything. Every day designers, décor experts and colourists study and analyse what is happening in the aesthetic world (a combination of art, fashion and design) and how it is evolving– new forms, trends, colours, nuances, finishes and textures. All of this information is then used to create environments in which each single piece (from the sofa to the furnishing accessories, right down to decorative objects) mingle and coalesce into a cohesive space which exudes harmony. At this stage, the concept goes to the prototype centre where Natuzzi Italia's immense know-how comes to the fore. Because although it is the designer with his pencil on a sheet of blank paper who first sketches out an idea (and this is the stage of pure creativity),

it is the know-how of the best craftsmen in the world who, each time with almost alchemical precision, bring magic into play and turn the drawing into a tangible product.

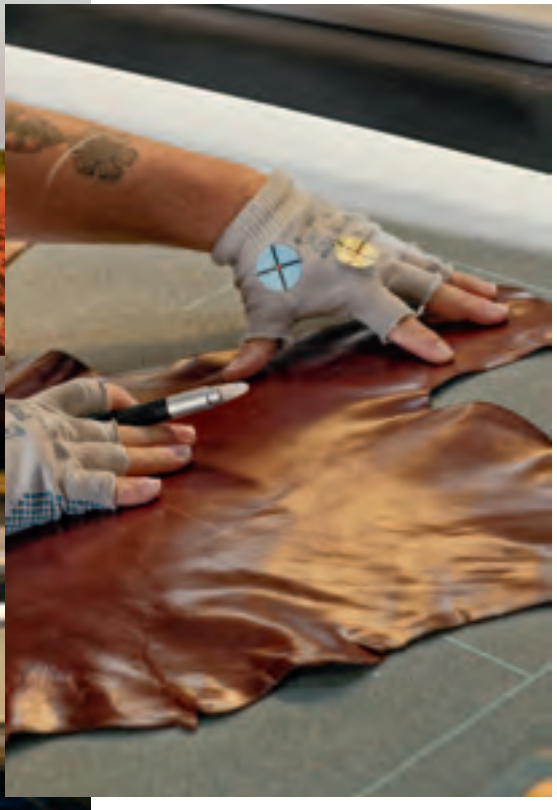

As with a consummate tailor, very few tools are required: a tape measure, some scissors and the raw materials – wood, the filling and the covering. Everything else comes down to precious experience and talent, demonstrating once and for all that Italian design is (and always will be) in a league of its own. Working in concert with them but taking it from a different angle (the angle of innovation), the research and development team does its own part, studying new hi-tech materials, foams and innovative fibres as well as automated ergonomic mechanisms which raise the bar in terms of customer well-being and enjoyment. By investing in research and development, Natuzzi has stayed ahead of the style curve, flushed its leather with the colour (actually the colours) of our homeland and honed its work processes, such as laser cutting, in order to achieve pinpoint accuracy.

But, most of all, it has grown the concept of comfort which has always been the basis of Natuzzi's style. It has combined fine Italian craftsmanship and the most advanced technology in the lounging sector to accomplish its goals (ample proof of this is provided by Re-vive, the first armchair in the world that automatically adapts to the way you sit). Being able to rely on one of the most advanced quality-testing laboratories in the world, Natuzzi is also able to certify all these innovative features. Because it is not only sofas and armchairs that are made on Natuzzi's premises in Italy, it is their accompanying certificates as well.

And, at this point, our acknowledgement of Italy's particular vocation for beauty and quality merges with our immense gratitude for a place – Apulia – to which we owe everything.

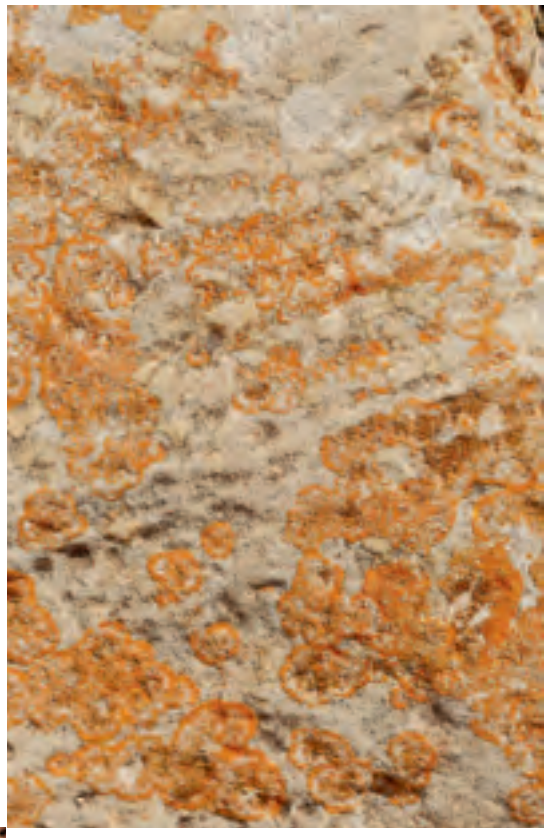

Our determination to stay here and to keep on producing, innovating, investing and creating value here is the natural consequence of a business ethic which has guided our progress unerringly over the past 60 years. It is an integral part of a value chain that is the only way forward on the path to continued excellence. We tread this path every day and you accompany us along the way each time you choose one of our products. It is not only an aesthetic choice; it is a taking of sides – and we lie on the side of the Ethic of Harmony.

Which means loving and respecting nature, starting with the raw materials that our artisans lovingly handle day by day.

There is the wood and the forests that it is harvested from – and our commitment is FSC-certified®. Then there is the leather which we process using some of the most advanced solutions in Europe in order to protect the environment. And the air which we preserve by only using the limitless solar energy of Apulia to create our products. All our raw materials are tracked too because we expect our suppliers to provide the same quality guarantees and respect for the environment that we do. Not to mention respect for people. But our history and our forefathers taught us about another kind of sustainability. The great artisans of the past created objects that would last; they had a really long lifespan and gave years of use. Dusting off this philosophy and marrying it with timeless designs means delivering products that will be welcomed and treasured by the next generations as well. This is what we do. Because designing and producing objects that will last and last, for us, is a way to express our DNA. We are not just talking about materials; we are talking about style.

About ageless beauty and elegance that endure the passage of time and passing trends.

The beauty of an inimitably glorious home to which we were born and in which we were brought up; a home that delights the eye wherever you happen to cast it - Italy.

natuzzi and the designers. the mosaic of harmony.

Historically, Apulia has always been a huge melting pot of races, cultures and traditions. And this is a characteristic that we find in an intensified form in the Natuzzi microcosm and its Style Center which not only safeguards the brand's very essence but is also a hub where international excellence and experience meet.
Natuzzi Italia's collections are the greatest expression of this felicitous combination, like a well-coordinated choir or a melody played by a superlative orchestra inspired and directed by Harmony itself and Pasquale Natuzzi's vision.

No-one else collaborates to the same extent with designers from all over the world. We do it because sharing and the harmonious merging of experience runs in our blood and we know that it engenders continuous limitless beauty. Natuzzi has created a *design blend* that exists nowhere else in the world. It brings together the vision, outlook and insights of eighteen different designers with extremely different backgrounds.

As we have no doubt that this is the right way to create such a unique design project, we asked each one of them to define their perfect blend of ethics and aesthetics, style and function, colours and materials, concepts and requirements. Everything comes together and produces a whole which is much greater than the sum of its parts. Just like the ancient Roman and Byzantine mosaics (a cherished legacy of our culture and the art of the Mediterranean people) where each single tile has its own colour, but when the mosaic is pieced together, the tiles form a whole and the eye is ravished by the entire image even though the brain is always aware that the whole is made up of thousands of details. In the same way, each designer's piece takes its place in the huge lifestyle mosaic of Natuzzi Italia and contributes to its intricate charm. A mosaic of contemporary style, that leads those who observe it to get lost in its colours, light and beauty.

living

enjoying total harmony.

In the beginning was the sofa. It was the ambassador of Natuzzi's style all over the world and an icon of Italian craftsmanship. Today more than ever, this is still what our lives revolve around because it means warmth, hospitality, conversation, reading, music, relaxation and, increasingly more frequently, work and study. Today it lies at the heart of the house and plays a starring role in Natuzzi Italia's lifestyle, that evolution/revolution of the very concept of life which sinks its roots in Mediterranean culture although it is narrated in a modern contemporary language which astounds with its tone of refinement and unmistakeably elegant detailing. This language is enriched every single day with new words and a new syntax and builds around the sofa an interior-design story that boasts dozens of new characters – coffee tables, armchairs, bookcases, writing desks, sideboards and bar cabinets – all of which have a common dream: enjoying (and helping you enjoy) living in harmony.

Wheel chandelier. (146, 818)
Sophia B rug. (812)

The plushness of the sofa brings to the fore the beauty of Water - the exclusive 3D fabric made by BYBORRE which is a combination of premium-quality wool and recycled PES.

The sleek design of the armrests with elegant flat-felled seamwork which is invisible from the outside.

designed by
Mauro Lipparini

buddie

Buddie is a contemporary take on the living room with a versatile system that can be endlessly rearranged, as well as backrests and seat cushions which slot smoothly into each other in a triumph of overlapping shapes that is not only aesthetically pleasing but also functional. (683)

Buddie three-seater sofa shown in Premium fabric. (683)
H77 - W320 - D100 cm
H30 - W126 - D39"

Margaret armchair. (74, 749)
Ika coffee tables. (72, 776)
Urchin vases. (832)
Decorative cushions.

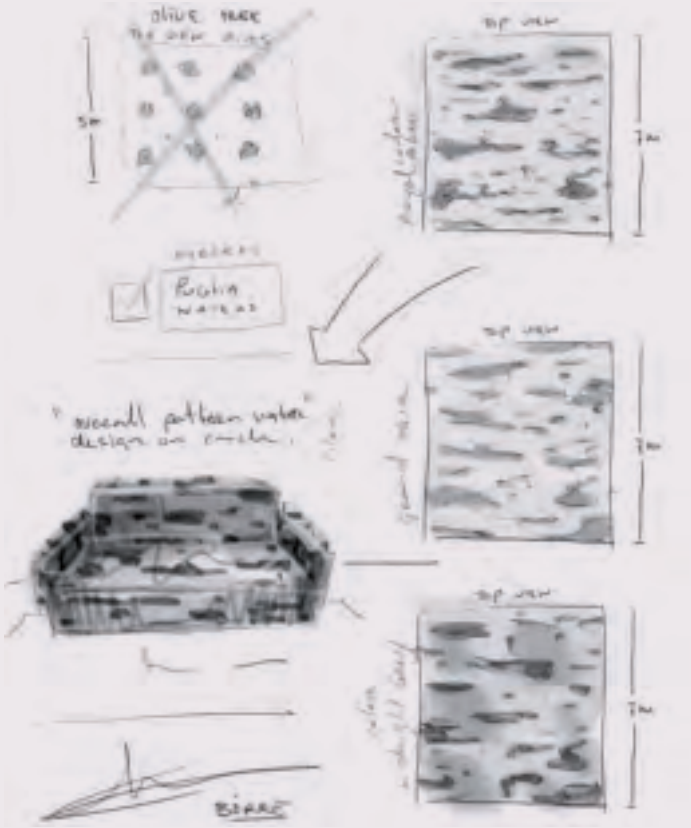

Water - the exclusive BYBORRE 3D fabric, is a combination of premium-quality wool and recycled PES.

BYBORRE®

Borre Akkersdijk is a Dutch textile designer and the founder of the fabric-innovation studio BYBORRE. Born in Wamel, Netherlands, he studied fashion design at the Fashion Institute of Technology in New York and received a Bachelor's in Man and Identity from the Design Academy Eindhoven in 2009 before working at the Paris-based design consultancy bureau Studio Edelkoort. He started BYBORRE in 2010, initially consulting for brands such as Nike and Louis Vuitton before deciding to focus solely on the development of his now signature 3D knitted fabrics. In 2012, he won the Young Designer of the Year award at the Dutch Design Awards. Research into the future of fashion and integrated technology resulted in presentations at South by Southwest, Beijing Designweek and Salone del Mobile Milano, as well as publications in the Wired magazine and Fast Company Magazine. Today, BYBORRE is a landmark studio filled with a wide range of machines and a team of specialists from all corners of the textile industry. The collaboration with Natuzzi, the first with a furniture company, represents the kind of disruptive intuition that defines the creative vision of Pasquale Junior Natuzzi. It is based on his belief that innovation should not be limited to collaborations with the leading figures and most prolific minds of contemporary design, but should lead the company to rethink their production methods, starting from their very foundations, with a new, radical approach that combines the most outstanding quality and sustainability. An approach in which process and product are equally important. In this regard, BYBORRE has proven to be a perfect partner. By studying and embracing Natuzzi's brand identity, the Dutch factory has created WATER, an exclusive fabric that embodies the heart and soul of Apulia, the muse that inspires Natuzzi's entire way of thinking. A 3D™ fabric that is unique worldwide, featuring a pattern that evokes the continuous movement of water, conveying all of Pasquale Junior's love for the sea. A knitted fabric made with a blend of the finest wools and recycled PES, which makes it extremely resistant and durable, yet luxurious, comfortable and totally eco-friendly. A fabric that embodies Apulia's heritage and the brand's identity, testifying to Natuzzi Italia forward-thinking vision.

"By thinking about the future of people and the planet, we are finding new ways to create quality, custom, and sustainable fabrics."

ika

designed by
Mauro Lipparini

In Japanese **Ika** means "cuttlebone". A tribute to the beauty of organic forms designed by Nature.

Ika coffee tables shown with glossy beige -grey (central version) and glossy sand (accent version) top and metal frame in a bronze colour. (776)

margaret

designed by
Mauro Lipparini

Margaret. An inviting concave leather silhouette makes this armchair as elegant as a sculpture.

Margaret armchair shown in a fixed version with a European walnut finish. (749)

Joy pendant lamp. (190, 817)

The back is a triumph of circularity and rotundity, immediately conveying a sense of visual comfort.

Nika Zupanc redefines the world of interior design in her own personal, poetic and distinctly feminine fashion. Her objects defy rationality and create an intimate, emotional and intuitive dimension. Her visual language aims to “communicate things that cannot be said”, pushing back the frontiers of materials and possibilities to breathe life into refined pieces that have been meticulously crafted and curated. This is why Elle USA used the words “punk elegance” to describe her work. Her installations are on display at the most important art galleries in the world and are often the product of partnerships and special projects, like that with the Rossana Orlandi Gallery of Milan. She takes an eclectic approach that bridges the gap between art and design and, over time, this has led her to take on interior-design projects that she follows from A to Z, curating them down to the tiniest detail with a sophisticated aesthetic packed with motifs and references that turn up everywhere in true Giò Ponti style. Her holistic mindset helped to bring about the encounter with Natuzzi, as it is in perfect keeping with the brand's “total-harmony” philosophy. And so, a collection came into being that focuses on waves, their visual impact and the inner mood they create because each piece has been devised for life seen as an emotionally-charged experience and a dwelling for the soul. A collection you can find yourself in, lulled by the reassuring familiarity of the sea and the eternal beauty of Mediterranean nature - a source of shared inspiration for Natuzzi and Zupanc.

“The collection is here to embrace and protect you, to become your true home. Beneath the waves there is always an ocean of peace”.

infinito

the poetry of design

Infinito came into being thanks to the idea of cross-pollination and to an almost impossible challenge - taking the core aesthetic of one of the most powerful symbols for the human race and turning it into an object that has a strong symbolic value for Natuzzi - the sofa. (703)

“It is necessary to steer new courses in the design world and seek new directions.

With Natuzzi, this is what we have done. We put the focus on poetry for our project, turning infinity – a symbol packed with meaning – into a fascinating three-dimensional shape, a sort of sculpture created to help you relax, feel good, feast your eyes and enjoy good company. A sofa for meditating and opening up to inspiration.”

Infinito sofa shown in Premium fabric. (703)
H85 - W300 - D242 cm
H33 - W118 - D95"
Colosseo arch lamp version shown in black chrome. (92, 372, 813)

Marcantonio's research constantly blurs the boundaries between art and design. His personality and work are both a fusion of a love for art and one-of-a-kind pieces; his design objects are meant to be part of an everyday household and their dual nature is bound by his utterly free creative thinking. With a strong sense of humour, a love of nature and his own personal vision of contemporary design, he has produced pieces of work that have already become modern icons. His vision and poetic approach are perfectly summed up by the words: "Design teaches us to draw, but it is from art that we learn how to have ideas. We are crammed with shapes in the design world, and, I think that either we move towards applied design technology, which will always make sense, but that is not my field, or we move towards poetry." He has definitely chosen the latter pathway and he draws inspiration from anti-academic and visionary figures like Ingo Maurer and Gaetano Pesce. Marcantonio sees in them the concept of "impure", crossed-fertilised and playful creativity which ensues from the constant intermingling of the most varied sectors, from pop-art culture to storytales and from primitive art to comic strips, where the differences have their own intrinsic worth and are in contrast with the concept of design purity. This same intrinsic worth has always underpinned Natuzzi's design vision. This is why (for the new Circle of Harmony collection for which design blends are a cornerstone) Pasquale Junior Natuzzi "challenged" Marcantonio and his creative mind for this co-venture with the brand, involving him in a project which is, on the one hand, almost an impossible feat and, on the other, the best way to bring out that marvellous inner world which transpires from each artist/designer's work, imbuing it with an unmistakeable unique feel.

"We have transformed the infinity symbol into a curvy sculpture which slides upon itself and becomes a restful sofa".

designed by
Manzoni&Tapinassi

tempo

Tempo's volumes and pared-back silhouette express a sophisticated sense of balance, making it the perfect place to experience harmony - pampered by the soft padding in memory foam and goose down, and lulled by the sweet embrace of a design that seems to put time on hold. (725)

The feet have a special finish in dark-grey metal. Because harmony is also hidden in the details.

Orfeo sideboard. (294, 790)

Kendo table lamp. (546, 817)
Sophia B rug. (812)

Side units fitted with
full-length feet in
tubular metal.

Fabio Novembre has been a leading light in the international design industry for over twenty years due to the visual power and iconic nature of his style. Marked by a highly recognisable visionary approach, his work has received a series of accolades and mentions in publications over the years. He has been scientific director of the Domus Academy and served on the scientific committee of the Design Museum at the Milan Triennale since 2019. Novembre and Natuzzi not only share a bond with Apulia which is a "motherland" and muse for both of them, but they also have a common passion for narration. This is what triggered their first key project together called Intro which was a 2016 Triennale installation put on display inside the "Stanze- Altre filosofie dell'abitare" ("Rooms - Novel living concepts") exhibition in partnership with the Salone del Mobile. A fascinating project based on a very lofty concept and a bearer of a sublime message, *Intro* brought to the fore the best of both Novembre and Natuzzi. By concentrating on the concept of the bedroom retraced to its most perfect ancestral roots, his mind settled on an egg represented by an oval-shaped alcove with an external mirrored-metal shell and a deep-red interior which looks almost like a womb; this alcove literally draws visitors in, isolating them in an otherworldly dimension before returning them to the world reborn with a keener sense of awareness. Crafted from materials customarily used for sofa manufacture and entirely hand-assembled by those who create sofas every day, *Intro* remains a one-of-a-kind piece of artistry and was a way to offer the international audience at the Triennale tangible proof of the love of craftsmanship that Natuzzi has always had. Four years down the line, Natuzzi and Novembre continue their remarkable teamwork, as is apparent from the strong bold aesthetic of the new collection and from the Circle of Harmony with a project that encapsulates all the extraordinary visual power of the designer from Lecce who many have likened to Fellini for his ability to generate images with an unmistakable trademark.

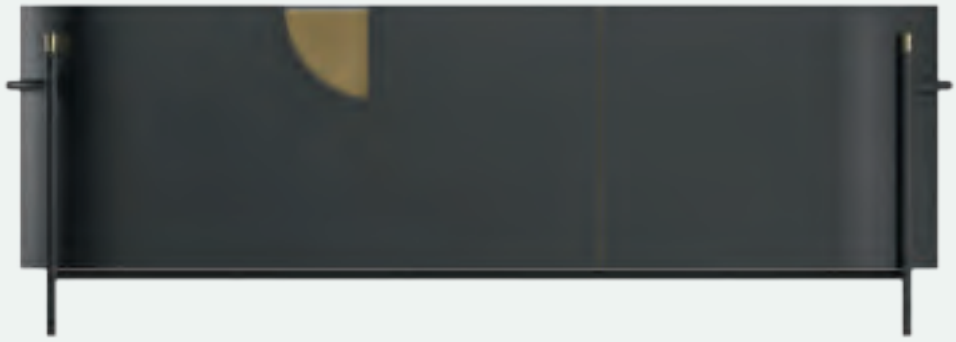

"Minimalist sensitivity and classic design. New Classic aims at getting these two philosophies closer to each other".

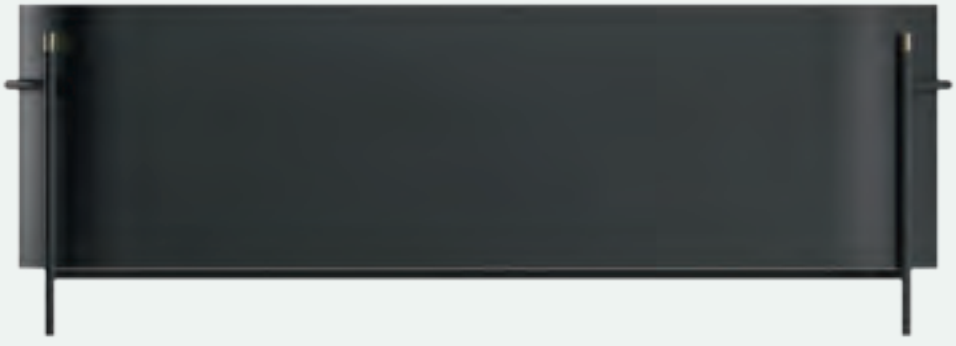

orfeo

designed by
Manzoni&Tapinassi

Superlative Italian craftsmanship and matchless design. The enchanting elegance of **Orfeo**.

Orfeo sideboard shown with a matte chocolate lacquered surface and a metal structure in chocolate-rose gold. (800)

amalia

designed by
Bernhardt & Vella

Sharp geometrical shapes and sleek volumes for an oasis of relaxation and comfort. This is no mirage, it is the **Amalia** round sofa.

Amalia round sofa shown in Premium fabric and set on smoked oak feet. (678)

designed by
Mauro Lipparini

ido

Design is a universal language, just like Ido which inspired Mauro Lipparini for this project. It is not just about a sofa; the idea was to create an actual seating system enhanced with table tops and furnishing accessories in which all the various elements cleverly slot together and rest on an elegantly airy and sleek open base. (702)

If desired, the coffee tables become tops built into the sofa system.

Ido two-seater sofa shown in Stylish leather with wooden table top. (702)
H71 - W318 - D128 cm
H28 - W125 - D50"
Ido coffee tables. (775)
Conca swivel armchair. (154, 743)
Gong Mini lamp. (56, 816)
Sophia B rug. (812)
Polo wallpaper. (837)

The **Ido** coffee tables are made up of mixed materials - marbles, metals, wood - and squarish pared-back shapes that neatly fit with each other like an intricately woven story plot.

Snappy details - the beautiful flat-felled seamwork, where the material is folded inwards so that it is invisible to the naked eye.

Allow it to take centre stage and play a starring role in your living area. In any case, it would be a shame to conceal such a gorgeous part of this piece

designed by
Claudio Bellini

botanic

Taking its cues from forms found in Nature as its name suggests, Botanic puts a new spin on the stylish design of the ‘50s - those sleek lines and that cohesive approach which refashioned the aesthetics of home design - and turns it into a compact pared-back project. (681)

Trullini room fragrance. (836)

Argo reclining chaise-longue for sleeping shown in Premium fabric. (751)

The chaise-longue with a recliner mechanism has an ideal position for every occasion and for each single moment in time.

The decorative martingale at the back of the sofa makes it the ideal centrepiece for a room where is it bound to play a starring role during gatherings of family and friends.

Paola Navone It was in the late '70s that Paola Navone made a name for herself on the international landscape, being, as she was, as a key figure within the Alchimia group (the most avant-garde set on the Italian design scene) and working alongside names like Ettore Sottsass, Andrea Branzi and Alessandro Mendini. Very much a citizen of the world, she is insatiably curious about other cultures (especially Oriental ones) and looks to travelling as a means to fuel her imagination and find inspiration; travel is what gratifies her most, and, in addition to habitually crossing geographical borders, she also customarily pushes back frontiers in other areas. In the course of her extensive career, she has slipped effortlessly from one professional role to another (art director, designer, architect, essayist, interior designer, teacher and curator of exhibitions and events), displaying not only her aptitude for an extremely exciting eclecticism, but also the prolific nature of her work. All the colours and flavours (discovered, adored and experienced) of the Southern hemisphere emerge from her work, yet are tempered by the styles and shapes of a rich Western tradition. And it was her love for the traditional and classical forms of home furnishings that led to the first partnership with Natuzzi in 2010 when the *I Fondamentali* collection came into being; this was a set of armchairs and sofas which drew inspiration from historical drawings that we are all familiar with, but were refreshed with a modern spin. Forms known to us, but softened and redefined with small sophisticated details which turn them into timeless objects, blurring the line between past and future with a subtle tongue-in-cheek twist. This range became a Natuzzi Italia style icon and a permanent part of the collections. It is a prime example of timeless harmony - as is her new project which responds to Pasquale Junior Natuzzi's invitation to join the Circle of Harmony and create a collection which is a blend of unique designs and a tribute to Mediterranean lifestyle. A theme which she interpreted in her own supremely unique way, as you would expect from a designer who is quintessentially cosmopolitan and relentlessly seeks out new worlds as well as fresh materials, forms and structures.

"Travelling is my way of breathing, of looking at the world. As I travel I store colours, shapes, materials, sensations in my head".

chocolat

designed by
Natuzzi Design Center

Unusual geometric shapes and exquisite materials – stone, glass or marble. The irresistible allure of the **Chocolat** coffee tables.

Chocolat coffee tables shown with a pewter frame. In this page with an Athens silver cream top. To the right, with a smoky glass top and a dark-grey back-lacquered surface. (769)

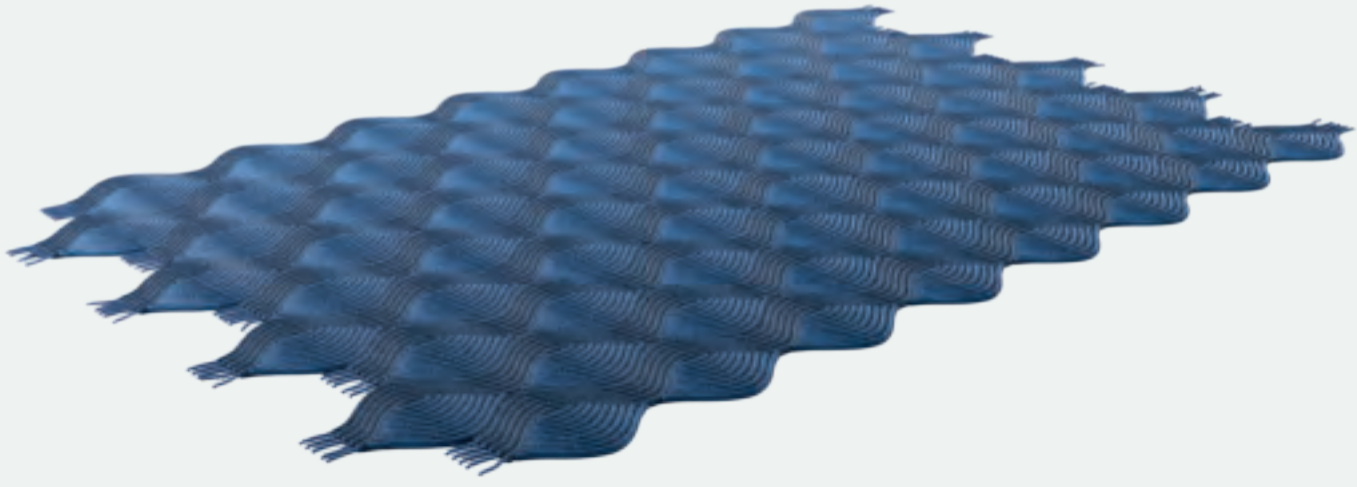

calcada

designed by

re-vive

designed by
Formway Studio

hi-tech, hi-relax.

We have always been innovators. It is just the way we are wired and Re-vive epitomises this aspect of our nature, as if it were a symbol or an icon of who we really are.
Our instincts led us to look beyond our horizons and push the envelope until we completely turned around the concept of a reclining armchair and the way it is used. A total game changer, just like the one in the '80s when Pasquale Natuzzi transformed the image of the leather sofa for ever.
And much like then, it all stemmed from an idea that is as simple as it is ...well, revolutionary: find a way to make the armchair adapt to the shape and movement of the body, rather than the body adapting to the armchair. When you try Re-vive, you experience a never-felt-before sensation.
It is as if the armchair were alive and had a soul. Actually, it does have one. A technological soul that is the result of top-level ergonomic engineering bringing together as many as 120 main components, 80 of which are made using exclusive moulds. A project for which we put together a real dream team, pooling Natuzzi's know-how with the knowledge of the Formway Design Studio, the most advanced centre for performance-seating research and design in the world.

We hatched the idea for Re-vive and developed it with Kent Parker, the studio's project director. It took over two years to finish the various phases of experimentation and research. We began by looking at the multi-dimensional movements found in nature which combine strength and flexibility, from the branch of a tree to the human spinal column. This helped us to identify a model that would be our base for the perfect armchair - one that would evenly distribute the weight of the body and keep it balanced it in a neutral way. What ensued is an armchair equipped with innovative technology and unique features, such as the Responsive Recline - a weight-compensation mechanism that intuitively detects changes in body posture - the adaptive armrests, complete movements that reach 360 degrees from the base and a tilting footrest. But that's not all. Re-vive is like nothing you have known before. Striking a perfect balance between aesthetics and design, it bears witness to the sheer excellence of Italian design - in this case, Natuzzi design.

Watch Re-vive in motion

an experience that is unique 9 times over

Honoured with the Trophée de l'Innovation at the Espritmeuble Furniture Fair of Paris, a gold at the Best Design Awards and other prestigious international accolades, Re-vive is an experience that is not easy to describe in words. It is like entering another dimension in which you unplug from the rest of the world and reconnect with the deepest part of yourself. A restorative regenerating respite - from the world and its hectic pace.

1 **You move, and Re-vive moves with you.** Automatically, without any need for external levers or mechanisms.

2 **You forget about the force of gravity.** Re-vive kicks in with a gentle rocking movement.

3 **You lean back, you stretch out or you curl up.** Re-vive's spinal column moves with you and provides constant support.

4 **You choose the position.** Re-vive follows your lead, turning in a circular fashion, twisting around in the lower-back region and reclining.

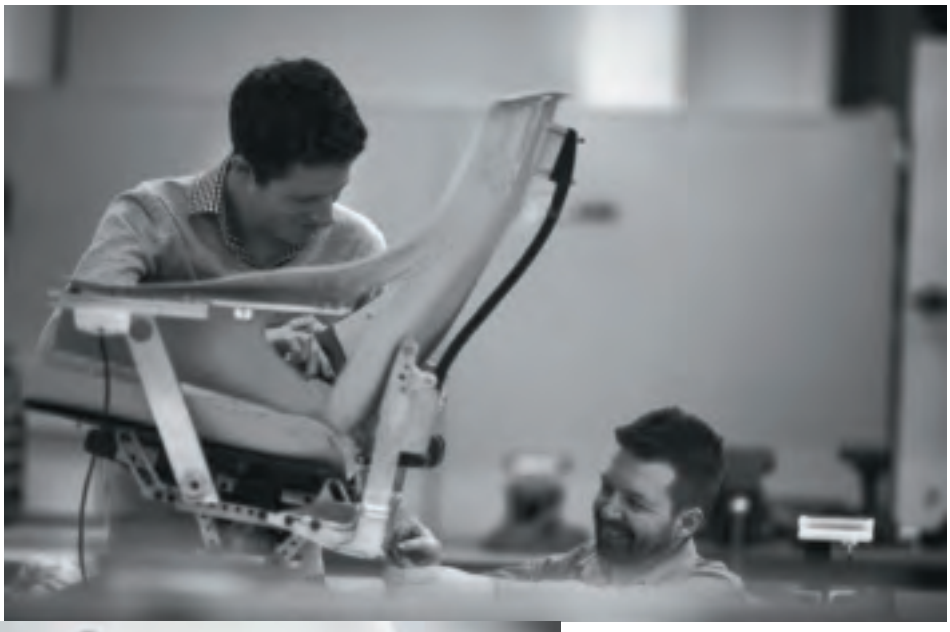

5 **You are totally free to relax.** The adaptive armrests follow your movements, effortlessly sliding back and forth.

6 **You turn, and turn and turn.** Re-vive moves with you, naturally and safely at 360°.

7 **You are lulled into a state of relaxation.** Re-vive supports you with a filling that adapts to your body.

8 **You rest, you become drowsy and you fall asleep.** The footstool provides your feet with support, adapting to all your movements.

9 **You sit however you want.** Re-vive accompanies you fluidly and naturally, without any clunkiness or jolts.

innovation meets natuzzi stylishness

By bringing together the finest Italian workmanship and the most advanced technology in the field of lounging systems, Re-vive raises the bar in terms of comfort, something that has always underpinned Natuzzi's design philosophy. But what makes Natuzzi style so unique is the fact that it gives you the pleasure of personalising each single piece of furnishing down to the tiniest detail. Re-vive is no exception to this rule.

Personalization starts with design and our Centro Stile has seven different options for you which suit all settings, tastes and personality. More comfortable, more contemporary, softer, more pristine... more yours. What is more, you can now choose between two sizes and dimensions (King and Queen) as well as a huge array of coverings (in leather and fabric) with many different combinations and a colour palette that includes over 80 variations for leather only.

quilted

Re-Vive quilted shown
in Essential leather. (735)

King
H 111 - W 90 - D82/115 cm
H 44" - W 35' - D32/45"

Queen
H 105 - W 85 - D80/113 cm
H 41" - W 33' - D31/44"

In the Quilted version, Re-vive conveys a sensation of sumptuous softness accentuated by an elegant decorative trim along the edges which highlights the beauty of its silhouette and bears witness to the outstanding quality of the artisanal workmanship. A plush layer of padding (even on the footrest) means that Re-vive effortlessly bears the weight of the body while you sink into a state of ineffable relaxation.

casual

Re-Vive casual shown
in Essential leather. (733)

King
H 112 - W 90 - D82/115 cm
H 44" - W 35" - D32/45"

Queen
H 106 - W 85 - D80/113 cm
H 42" - W 33' - D31/44"

Boasting a minimalist aesthetic, Re-vive Casual scores high on comfort. The large wraparound backrest becomes one with the headrest and merges harmoniously with the sleek-looking arms. It has been crafted from extremely hardwearing environmentally-friendly materials for a sense of well-being that ensures harmony in the broadest sense possible.

club

Re-Vive club shown
in Premium fabric. (733)

King
H 111 - W 90 - D82/115 cm
H 44" - W 35' - D32/45"

Queen
H 106 - W 85 - D80/113 cm
H 42" - W 33' - D31/44"

The large and invitingly comfortable backrest of the Re-vive Club armchair also features embellishments on the built-in headrest and footrest. Like all items from the Re-vive range, Club combines the exclusive signature comfort of Natuzzi Italia armchairs with the most advanced ergonomic technology.

lounge

Re-Vive lounge shown
in Essential leather. (734)

King
H 111 - W 90 - D82/115 cm
H 44" - W 35' - D32/45"

Queen
H 105 - W 85 - D80/113 cm
H 41" - W 33' - D31/44"

Refined and modern,
Re-vive Lounge bears the unmistakable hallmark of Natuzzi artisans, as can be seen by the delicate padded quilting on the backrest which has been done by hand and repeated on the footrest too. A soft embrace that pampers you and helps you to relax.

wing back

Re-Vive wing back shown in Premium fabric. (736)

King
H 115 - W 95 - D85/117 cm
H 45" - W 37' - D35/46"

Queen
H 110 - W 90 - D80/115 cm
H 43" - W 35' - D31/45"

With its comfortable protective shape and invitingly generous backrest, Wing Back offers unsurpassed comfort, further boosted the highly distinctive design of the headrest which looks like a pair of wings opening out to embrace you and lifting you upward into flight until you reach a plane of relaxation that allows you to leave all your worldly worries behind.

myway

Re-Vive myway shown in Stylish leather. (734)

King
H 110 - W 99 - D97/130 cm
H 43" - W 39' - D38/51"

Queen
H 108 - W 92 - D91/124 cm
H 43" - W 36" - D36/49'

Mauro Lipparini revisits Re-vive - his way, of course - and puts his own stylish and instantly recognisable stamp on an armchair that boasts outstanding visual comfort and beckons you to sink into its soft silhouette. Superlative Natuzzi workmanship is showcased by the quilting on the backrest and seat which not only testifies to the sheer skill of the upholstery work but also elevates this item with a decorative inflection. A sartorial piece of prêt-à-porter which will fit seamlessly into a contemporary lifestyle and suit any setting, however tricky, and any customer, however discerning, because it is in a league of its own in terms of craftsmanship and design concept.

shuttle

Re-Vive shuttle shown
in Essential leather. (735)

Queen
H 106 - W 89 - D95/128 cm
H 42" - W 35" - D37/50"

Floating in space like an astronaut, free of gravity. The Shuttle version of Re-vive has been designed to give you that same sense of lightness and letting go. Elevated by the artistry of Mauro Lipparini, this armchair raises the bar in terms of individualised comfort. Its large trademark side wings convey a sense of welcoming and protection. The sumptuous unstructured padding comes as close to deep and intimate as you could expect from an armchair so you can claim your own space, dive into your favourite book or music and just enjoy your own personal universe.

610

Re-vive 610 shown
in Essential leather. (736)

King
H 111 - W 90 - D82/115 cm
H 44" - W 35' - D32/45"

Queen
H 105 - W 85 - D80/113 cm
H 41" - W 33' - D31/44"

Ergonomic comfort, cutting-edge technology and functional design are combined to give the best relaxing experience. The large comfortable backrest is a continuous invitation to relax and enjoy the ultimate comfort of the Re-vive technology, while its linear design makes it suitable for any style of furniture. The chair is covered with superior quality leather or fabric in a wide variety of colours.

re-thinking re-vive.

Re-vive has smashed many records, but there is one we are especially proud of: it is the first “performance recliner” in the world. The Re-thinking Re-vive project sprung up around Natuzzi Italia’s iconic product. This basically uses the armchair as a “blank canvas” upon which the creativity and different viewpoints of great international artists are unleashed.
This project pushes back the boundaries of design because it sees Re-vive as an object/space turned over to art which is then left free to express itself in keeping with the values that identify the brand - its visual codes which draw inspiration from Mother Nature and Apulia.
This project has graced the most important places and events for design, including the London Design Festival, the New York X Design festival and the Salone del Mobile Milano-Shanghai.

And it provides further proof, should proof be needed, that beauty is a product of the meeting and intermingling of different cultures. And this is true today more than ever.
This concept first formed a foundation for our idea of harmony more than sixty years ago.
And the fact that confirmation also comes from this encounter with art and artists drives us to pursue our quest for a lifestyle that resides - increasingly so - in the art of living and dwelling.

dining

putting harmony on the table.

Premium materials, fine workmanship, functionality and design are the hallmarks of Natuzzi Italia's collections for the dining area. Underpinning all the chairs, tables, sideboards and buffet tables, there is both an uncompromising research into design and a carefully curated colour palette which together create endless combinations of harmony. Because the right atmosphere is essential in a room which, in the Mediterranean culture, is a special place – the place of companionship. Where family members and friends come together to share opinions, feelings, gazes, beauty, food and wine – and congregating around a table is always a moment of betterment, joy and exuberance.

torsion

design becomes sculpture

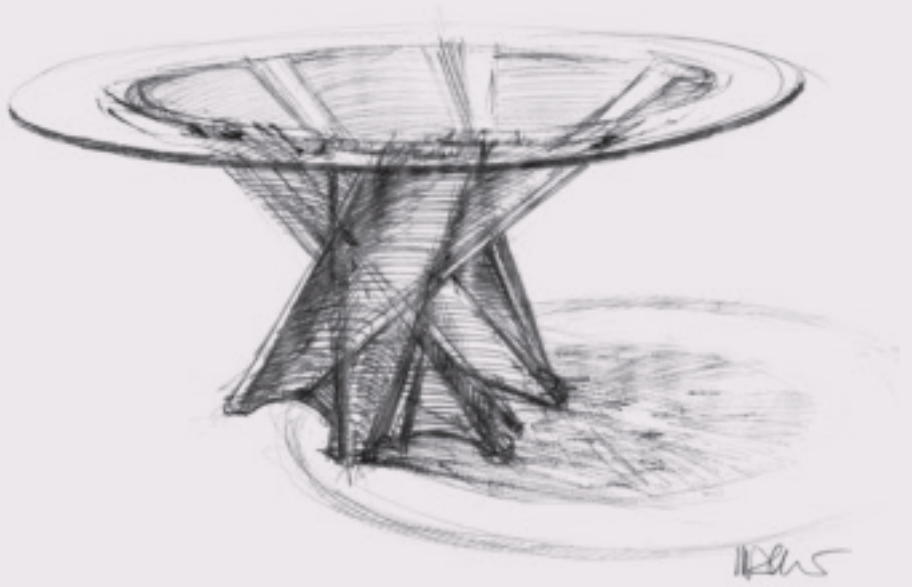

Torsion is a limited-edition collection that celebrates 60 years of the brand being in existence. Production will be capped at 60 units and it can be ordered from all Natuzzi Italia stores worldwide. Evidence of product authenticity is provided by the consecutive numbering etched on one of the six “branches” of the table support structure. The number will match the one shown on the Certificate which has been made from a sample of the olive wood used to manufacture the table. The two-metre-diameter table top comes in extra-clear tempered glass with a polished milled edge. The structure supporting the glass top evokes the upward unfolding of an olive tree, and it is made of six stylised “branches”. Each branch is made up of about 10 layered strips of solid olive wood, pantograph-cut with precision CNC machines, then glued and polished by hand before receiving an oil finish.

Mario Bellini One of the most renowned and acclaimed architects in the world, Mario Bellini is a living legend and the modern embodiment of "Italian genius". He has received the *Compasso d'Oro* (the most authoritative international design award) on eight occasions and 25 pieces of his work are part of the permanent collection at the MoMA of New York which celebrated him with a huge retrospective in 1987. Not only is he is the creator of iconic furnishings and objects that have made their way into homes and offices all over the world, often pre-empting or shaking up tastes and styles, he is also the designer of a series of extremely prestigious buildings, such as the Tokyo Design Centre, the Department of Islamic Art at the Louvre in Paris and the New Convention Centre of Milan – the largest in Europe. And it was in the course of one of these extraordinary projects, the one to build the Natuzzi Americas headquarters in the United States, that a firm friendship developed between Mario Bellini and Pasquale Natuzzi. The level of affinity between them when it came to the concept of beauty and harmony was immense, as is immediately obvious from the design of the building which won the prestigious Pinnacle Award. The design is not only harmonious (as transpires from the forms, materials and colours which are perfectly attuned to each other and underlie the creative philosophy and DNA of the Natuzzi brand), it has a strong symbolic value. The building is reminiscent of the prow of a ship and references the journey over the ocean that Pasquale Natuzzi made in the '80s at a watershed moment in the company's history. It was in New York as he stood in front of a shop window at Macy's, the biggest department store in town, that Pasquale Natuzzi was struck by an idea that would have changed the face of the furnishings industry for ever – he decided to put a cool colourful spin on the leather sofa and sell it at an affordable price. The rest is history, just like Torsion – the latest partnership which celebrates 60 years of business and the excellence of Italian manufacturing and design – something that Natuzzi and Mario Bellini both utterly epitomise.

"Imagine a chair without a table: it doesn't work, just as a table without chairs doesn't work. But if the chair is for our body, the table is a structure that supports a surface around which people sit, eat, read and work. The Torsion table, made in olive wood, is the outcome of my inexhaustible, endless passion for those fascinating elements of home architecture that have always been the heart of the domestic environment."

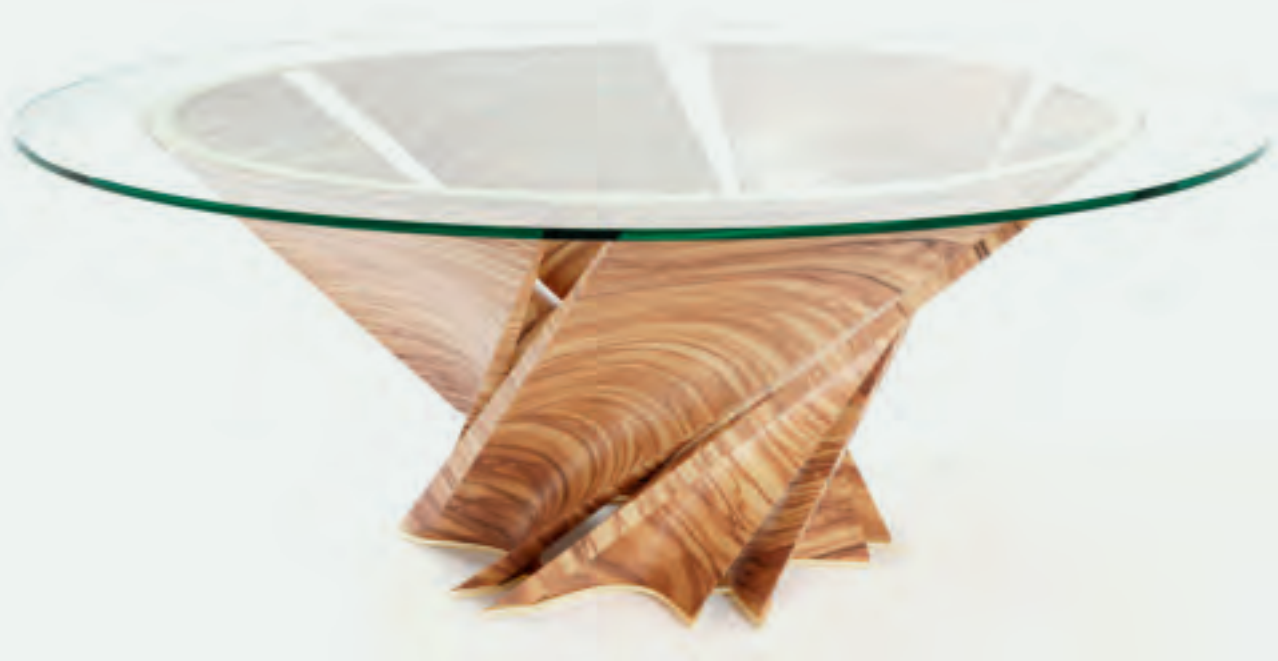

Mario Bellini, one of the greatest living architects and designers, succinctly describes an extraordinary project –

the very pinnacle of Natuzzi Italia's craft excellence and the ultimate expression of woodworking artistry.

Six vertical helix-shaped elements in solid olive wood appear to turn circles around each other like a galaxy. And, like any galaxy, they impart energy and dynamism to the whole system. A design that enhances the evocative and symbolic power of the support object to make it into a sculpture, serving as a fitting centrepiece to the room. Its modern, monumental character and imposing beauty unmistakably evoke the olive trees of Apulia, whose age-old, twisted trunks unbendingly resist the winter winds. And it is the sculptural effect of that torsion that makes them unique. Like ultra-modern works of art carved directly from wood.

Mario Bellini pays homage to the land that has always inspired the brand

and which launched the extraordinary personal and professional venture of Pasquale Natuzzi. But the project also celebrates the energy and dynamism that has been driving Natuzzi Italia since the beginning of its journey, to become the world's best-known Italian lifestyle brand in the furniture-making sector. A unique and unrepeatable journey that the company has undertaken without ever losing its identity – on the contrary, it has gained strength – and always staying true to its roots. Strongly and steadfastly planted in the land of Apulia, just like olive trees.

bed room

the harmony you have always dreamed of.

The bedroom area is the place you can finally enjoy some downtime and recharge your batteries at the end of a working day. This is why Natuzzi Italia has designed a collection of beds, bedside tables and chests of drawers which brings all its immense know-how and rich history to this most intimate and personal space. What this means is exclusive comfort levels which have won over the world, invaluable Italian craftsmanship, environmentally-friendly processing, curated details and exquisite materials – only the most premium leather which is the crown jewel of our work process, the most exclusive innovative fabrics and the best wood coming from responsibly and sustainably managed forests.
A collection of dreams that drift into reality, becoming a blend of the palpable world and the ideal one.

designed by
Ross Lovegrove

ergo

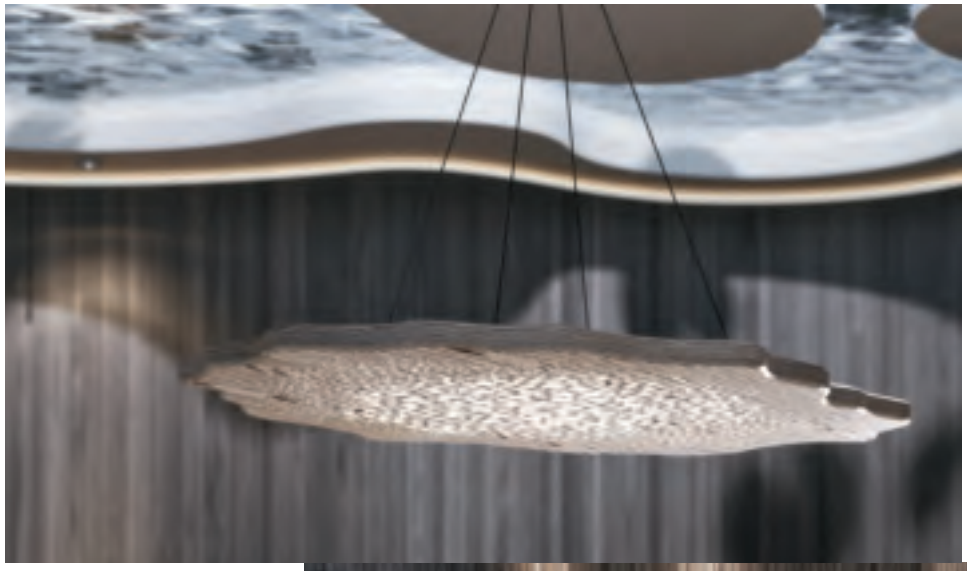

going back to basics to reimagine the future

The **Ergo** collection is deeply tied to nature in its essence and in its appearance, because each item, from the bed to the large chest of drawers, the chaise-longue and the mirror, is made with responsibly-sourced, renewable and recyclable materials. The wood comes from FSC®-certified plantations that are managed in accordance with strict environmental, social and economic standards. Each piece interlocks for simple furniture assembly and all the finishes are in natural wax. The only metal used is aluminium – an infinitely recyclable material. The textile fibres used for lining and upholstering are completely organic (linen, wool and cotton). The mattress is in 100% natural latex. The LED lamps have a very low energy consumption. This project has received acclaim across the board, winning the Red Dot Award: Design Concept 2019, the most important prize in the world for innovation, engineering excellence and the expression of an idea through design. It is a tribute to a collection with fluid and essential forms – "created by the earth for the earth" – which has ushered in a new era of harmony.

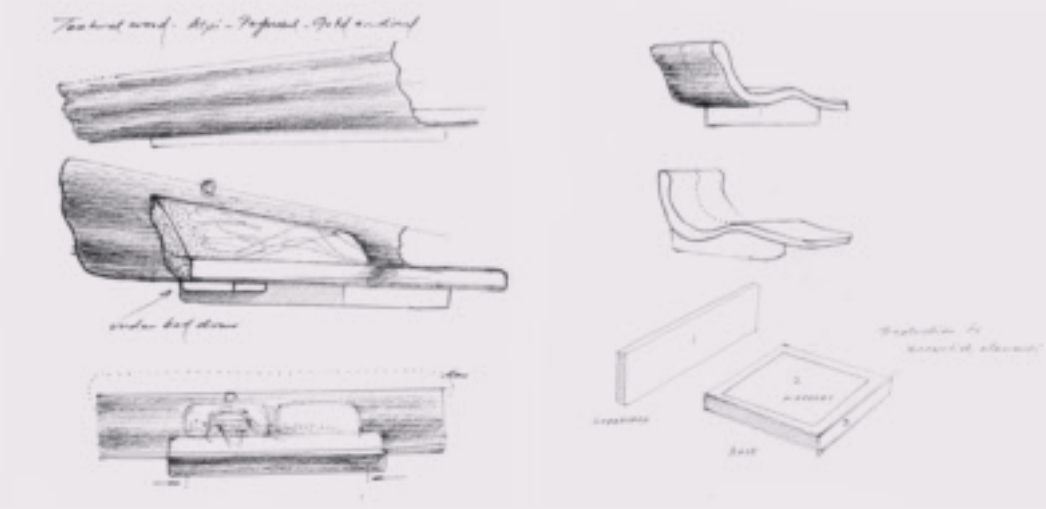

Ross Lovegrove Ross Lovegrove is a totally innovative and extraordinarily visionary designer; he brings together technology, material science and intelligent organic form to create what is considered by many as the new aesthetic expression of the twenty-first century. Extremely eco-conscious, he also takes a deeply human, enterprising and visionary approach to his projects and transforms whatever he touches with his optimistic spirit and innovative vitality, whether it be a camera, a car or a piece of architecture. With his creations he sparks a sense of wonder, establishes a connection that resonates on a deep level and delivers objects with a special feel; he already distinguished himself with the originality of his work at the beginning of his career with the Apple iMac and the Sony Walkman designed in the early '80s at Frog Design. Starting out in Western Germany, he subsequently moved to the Atelier de Nîmes in Paris (a design studio of which Philippe Starck and Jean Nouvel were also members) and then to London in '86. His projects have won numerous international awards and been exhibited at the Museum of Modern Art in New York, the Pompidou Centre in Paris and the Design Museum in London where, in '93, he curated his first permanent collection. Beauty inspired by nature is what primarily drives his work and it was this common ground (and common territory) that brought Lovegrove and Natuzzi together; another shared passion and professional obsession proved to be the ethics of production – something which is pivotal to ensure sustainability. "Organic means not manipulated, reliable and honest", states Lovegrove. So, sustainability does not stop at materials and processes, but it is also about the way we think. A new mindset which helps us to discern in a top-quality décor all the attention, care, passion and love that people have invested and these human sentiments are linked to the concept of durability and longevity for our objects. Because when a piece of furniture has been designed to last, it doesn't need a second life – one is enough.

"We have tried to define a new meaning for ecology, through intense research on evolved, sustainable materials for the development of every micro element of the collection. But we also need to communicate that an international global brand is going through a major evolutionary change, rooted in a vision based on tangible and intangible values that speak to the contemporary world, allowing us to feel part of a cause that relates to all our lives."

This is how Ross Lovegrove – one of the world's most influential and visionary designers – sees **Ergo**, a bedroom collection that seems to come from another era, primordial and futuristic at the same time. It is a place inhabited by objects that seem shaped only by the silent and unceasing work of time, but which are actually a very modern

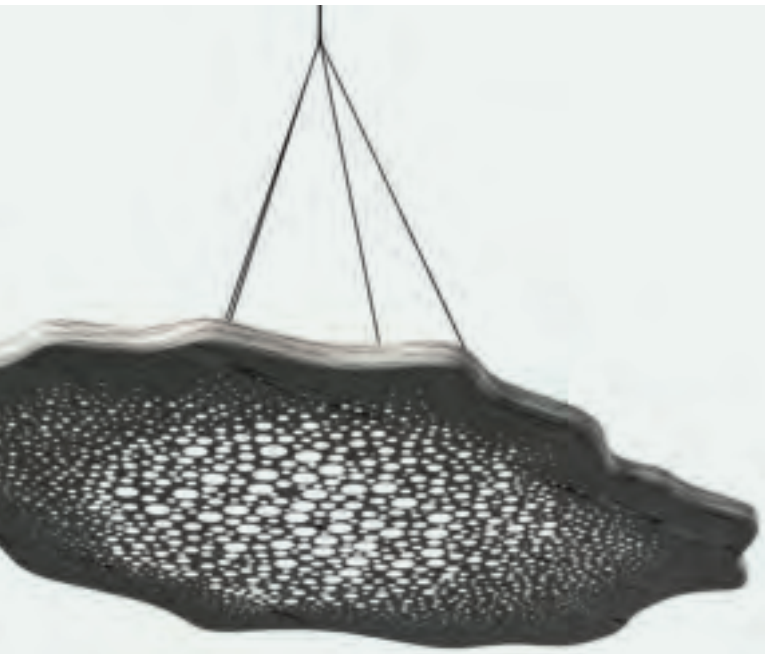

"translation of 21st century technologies into organic forms"

to use an expression coined by Lovegrove himself. **Ergo** is Natuzzi Italia's manifesto for its intended reimagining of the future of design. Lined up alongside the company are some of the top players in world design, sharing the creative vision of the brand and enriching it with their own imprint, never failing to surprise and excite through their ingenuity and boldness. The pencil and the brilliant mind of Ross Lovegrove translated this vision into an exacting study of organic design, of the empathic relationship between material and purpose, but also between the objects we create and their ability to respect the environment. The **Ergo** collection takes our spaces and projects beyond the walls to the outside, finding a deeper and harmonious meaning that expresses our love of nature in a renewed approach to sustainability, minimising environmental impact in terms of choice of materials and energy consumption.

For Pasquale Junior Natuzzi, creative director of the brand, this manifesto collection is inspired once again by the places where it all began, by its origins, by “Mother Earth”, at once Mediterranean, generous and fruitful:
“The company’s wisdom and knowledge grew from the deep ties that always bring us back to our land of Apulia and its extraordinary resources. This feeling inspires us and encourages us to look at nature with a great sense of respect and total devotion.

It is a dimension where we follow the cycle of nature through a culture based on know-how, which translates into organic design

and an awareness of good living, which is expressed in ethical production values”.

sleeping in natural harmony

COCO-MAT

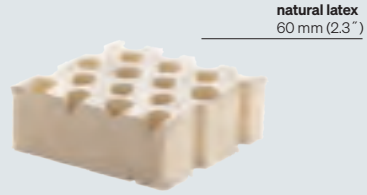

Designed and entirely made in Italy, Natuzzi Italia's beds are a benchmark for those seeking the utmost harmony and quality, even when sleeping. Their perfect match are the innovative mattresses developed in partnership with Coco-Mat, a pioneering company. Completely artisanal, totally natural and ergonomic, these mattresses are essential components for an extremely comfortable and restorative night's sleep.

Atlas mattress
Handcrafted with care using Nature's finest materials to provide maximum comfort and create the conditions for rest. Atlas will lend itself to any individual preference and you can choose between a springy and less springy side. Suitable for all body types.
materials Natural Latex, Rubberised Coconut Fibre and Seaweed.
elasticity Different on each side – Soft and firm.
height ±18 cm (7″)
cover Washable, 100% cotton.

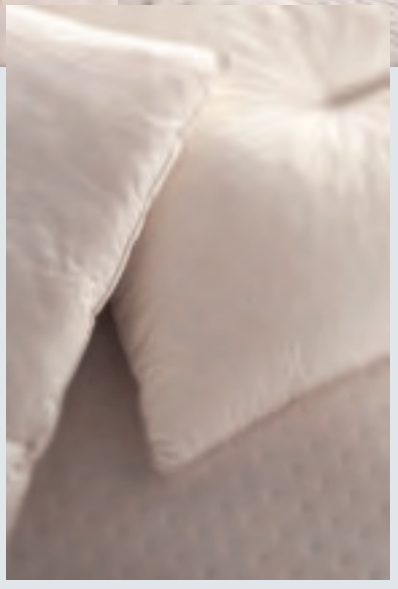

Proteas mattress
Exquisitely handcrafted, Proteas is our most exclusive and intricately designed mattress, made entirely from natural materials. Made to embrace each curve of the body and provide optimal support to heavier parts while ensuring maximum springiness. Suitable for all body types.
materials Natural Latex, Rubberised Coconut Fibre, Horsehair, Eucalyptus leaves, Cactus Fibres and Seaweed.
elasticity Different on each side – Soft and medium.
height ±25 cm (9.8″)
cover Washable, 100% cotton.

Iviskos top mattress
A thick layer of natural latex which provides optimum springiness and comfort. Works in combination with the mattress to improve the sleep experience. Suitable for all body types. The cotton covers can be easily removed and washed for maximum hygiene.
materials Natural Latex.
height ±6 cm (2.3″)
cover Washable, 100% cotton.

pillows

Sithon I natural latex flakes.
Optimal head and neck support. Suitable for all body builds. Fully customisable. 50 × 70 cm.

Sithon V pure virgin wool. Hypo-allergenic. Enhanced head and neck support. Suitable for all body builds. Customisable. 50 × 70 cm.

Narkissos I natural latex flakes.
Ideal for those who sleep on their side. Optimal head and neck support. Suitable for all body builds. Fully customisable. 50 × 70 cm.

materials

Natural rubber
A colloid, milky fluid which undergoes a special process to become soft elastic foam. The name given to rubber by indigenous Equator tribes was "caoutchouc", from the words "caa" (tear) and "ochu" (tree), because of the way it is collected.

Coconut husk
The husk of the tropical coconut fruit is coated in strong, resilient fibres which are sprayed with natural rubber, shaped into layers and used on our products. Coconut fibres are known for their durability and insulating properties.

Seaweed
Over the years it has been used for multiple purposes, from a medical remedy to insulating material. Once dried, we use it for its slowly-released scent of iodine. Iodine is known to benefit the breathing system.

Cotton
Used to make soft comfortable clothes and other textiles, cotton has a long history. Light, fluffy and naturally hypo-allergenic, cotton is the undisputed king of all our fabrics.

Wool
Although woollen fabrics are commonly thought to be more suitable for colder climates, in fact, wool is perhaps the only natural material that can keep us warm in winter and cool in summer, thanks to its insulating properties.

Eucalyptus
The tall eucalyptus tree is well-known for its shade and its healing properties. The essential oil distilled from its leaves has a refreshing smell and is a natural remedy, beneficial for our breathing system.

Horsehair
Over the ages it has been used to make brushes, strings for musical instruments, and even toothbrushes. Horsehair is naturally waterproof and can absorb humidity to create a dry environment.

Cactus
An excellent survivor in any environment, this exotic plant has strong and durable fibres which can regulate humidity and maintain a dry environment.

Lavender
A fragrant shrub, famous for its sweet scent and beneficial remedies, lavender is widely used in cosmetics, perfumes, balms and medicines. Its seductive aroma is known to have relaxing effects.

Down
Down has been associated with dreamy sleep due to it being lighter-than-air. Delightfully soft, it keeps us warm, thanks to its inherent ability to let air pass through, while keeping temperature levels stable.

a soft, warm, silky embrace

Our dream begins in Apulia where natural elements are transformed into light, depth, warmth, and colour. Then they take shape, filled with substance, matter, and more. They absorb culture, tradition, and passion. Understated luxury evidenced by attention to detail and the sophisticated craftsmanship of the finest-quality yarns. All the most up-to-date shades, weaves and a blend of traditional workmanship and modern techniques - these are just some of the typical features of our matching bed linen, blankets and decorative cushions.

Bed Linen

Timeless elegance and seduction. Natuzzi Italia's colour-coordinated bed linen expresses all the excellence of Italian design in a sartorial collection packed with exquisite details. In pure superior-quality cotton percale or in pure linen, they are finished with special hand-crafted techniques.

Cushions

In a stunning blend of Italian tradition and contemporary design, Natuzzi Italia presents an extensive collection of decorative cushions. Available in a variety of dazzlingly bright colours and in elegant natural materials. Natuzzi Italia cushions are designed to add an exquisite and harmonious personal touch to the rooms of the home.

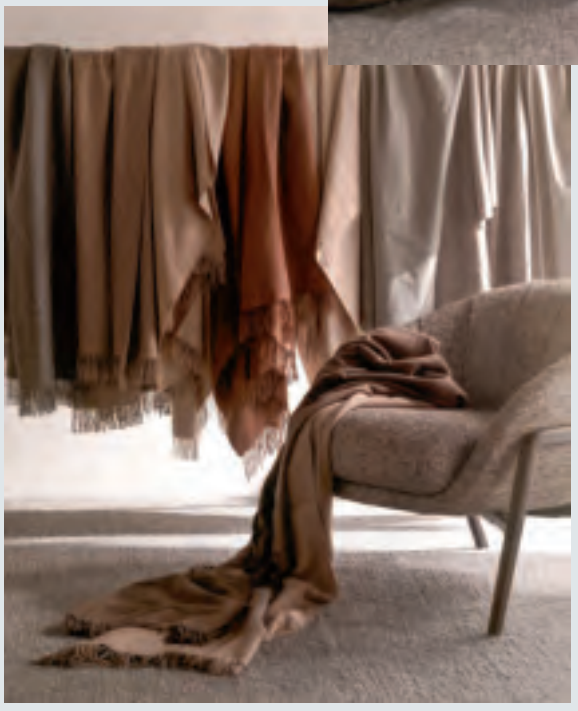

Blankets

Pleasing to the eye and warm to the touch, Natuzzi Italia blankets convey an authentic experience of taste and style. In pure cashmere or in 100% merino wool, they are the ideal companions for curling up on the sofa on cold winter days, also doubling as decorative furnishings for your home. The superb quality and special properties of the fibres make these blankets a perfect gift for important occasions.

STORE

NATUZZI
ITALIA

the place of harmony

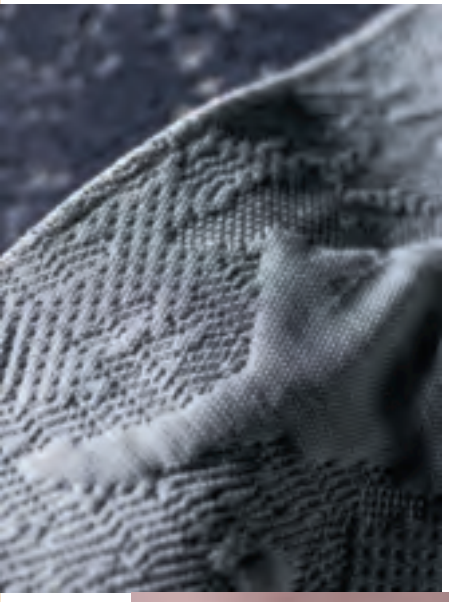

sensory immersion. virtual spaces. an unprecedented experience.

“All that inspires us becomes form, design and objects. And it is our pleasure to tell it, show it and share it all”. Pasquale Natuzzi

The Natuzzi Italia store is the place where this happens every day: the setting where the brand’s story and image become customer experience, the centrepiece of a multi-sensory event revolving around Italian lifestyle: the blown-up images of Apulia meld with the collections it inspires, while home fragrances and essences of Mediterranean plants mingle with the aroma of freshly-brewed espresso. The new Natuzzi vision no longer contemplates stores that specialise in products, but places where we celebrate harmony and where the classic sales process coexists with cutting-edge technology. What others call the future, Natuzzi Italia has right now in the present, and it is called Natuzzi Augmented Store – a new space concept where everything that a physical store has to offer is vastly amplified by Mixed, Augmented and Virtual Reality. This new shopping experience transports the customer to a virtual showroom where they can access the entire Natuzzi Italia range, view products as if they were real, in 1:1 scale, and interact with them by changing colours and finishes. This venture has won the prestigious Retail Week Award, confirming Natuzzi as the only player in the industry that can offer a completely new shopping experience, through a combination of innovation and creativity. This is further recognition of how Natuzzi Italia, as a lifestyle brand, is forward-thinking in the way it builds strong and lasting relationships with its customers, continuously seeking out the best ways to welcome them and offer them a unique and memorable shopping experience. That also means calling on the best specialist staff – architects, interior designers, consultants – who can interpret their desires in the various furniture design phases and transform them into “bespoke” solutions, customised and worked out to the last detail. It means cosseting, pampering and surprising them right until the end, when we make a “white glove delivery” of the chosen item to the customer's home - elegantly packaged and arranged with all the attention it deserves. Because the high quality of the “Natuzzi experience” – what we call retail excellence – is just as impeccable and refined as its collections.

soul and matter

Natural matter has always been our passion.

Natural matter has always been our passion. Our fathers, grandfathers and great grandfathers took the same impassioned approach when they shaped our splendid surrounds - our place of birth and homeland, our local area and country. Following in their footsteps, we apply ourselves to the task with love, dedication and reverence because this matter is alive and possesses a soul. It acts as an extraordinary source of inspiration for our Natuzzi Italia collections. In which the beauty of matter is brought to the fore in endless combinations of form and colour, artfully defined by the Natuzzi Style Center and tirelessly studied in a quest for perfect harmony: leather and fabrics are carefully counterpointed by unfinished wood and glossy lacquered surfaces, superlative marbles contrast with hardened steel and the warmth of natural wood is set off by glass and metal with a shiny or satiny surface. This unique heritage translates into a vast range of immense worth.
A country of marvels to be explored together with our interior designers in the Natuzzi Italia stores as your “home of harmony” is created alongside them in 3D and in real time.

The pleasure of leather.

Natuzzi and leather have always gone hand in hand. This natural affinity has been part and parcel of the success of the Natuzzi collections since the very beginning. Imitated in vain by our competitors, Natuzzi leather is a benchmark for the industry and recognised for its superiority all over the world. Its beauty, suppleness, colour and even its scent have raised the bar in terms of visual elegance and pleasure for the senses. Being a living material, leather literally breathes. And it does not feel the need to disguise its natural markings. As a matter of fact, it puts them on proud display, proffering them as incontrovertible proof of its authenticity. At Natuzzi, this kind of worn leather forged by nature is (aptly) called Natural. It is a source of pride for our experienced master tanners who enhance each detail with consummate skill, relying on an exclusive tanning process developed over the course of 60 years. The leather is not only beautiful to look at, it has also been processed to meet European environmental standards which are amongst the most stringent in the world. This is why it offers a guarantee of complete non-toxicity and durability over time. But the advantages don't stop here. To cope with the many challenges of daily life, you can count on the practical nature of Protecta leathers - the ultimate way to enjoy sofa lounging without worries. An invisible protective layer makes them incredibly hardwearing whilst preserving all their natural beauty. Which ensures total peace of mind while children and pets get on with doing what they do.

Essential
The ultimate choice for lovers of leather and its undeniable allure. Not only does this material withstand the test of time, it actually looks better as the years roll by. A wide array that is bound to satisfy the whole gamut of style and usage requirements.

Stylish
A selection marked by a strong focus on style. With fashionable hues and innovative designs, it explores inspirations and trends coming from all over the world. A perfect way to elevate your sofa with grit and personality.

Prestige
Leathers made for customers who want exclusive coverings and timeless elegance. They embody all that Natuzzi stands for not only in terms of quality.

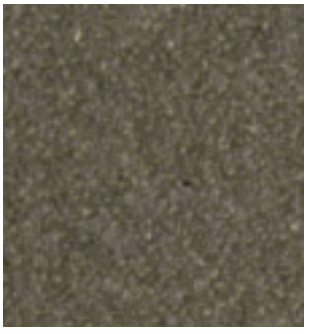

Fabrics and microfibres. The “Natuzzi touch”.

That it is a Natuzzi fabric is immediately apparent from its touch. It is such a delight to the senses that it is almost impossible not to stroke it. The vast choice available means that everyone will be able to find the covering best suited to their home and lifestyle. Motifs and precious patterning are etched on linen, wool, silk and cotton which entice with their natural allure. Viscose, velvet and microfibre astound with their tactile texture while ensuring immense resistance to both washing and wear and tear. A world where the quality of natural materials goes hand in hand with the innovative nature of hi-tech fibres and outperforming fabrics enhanced with exclusive technology which coats each fibre with an invisible film, locking out dirt and allowing for the easy removal of stains. Fabrics which are safe, ecological and OEKO-TEX® Standard 100 certified, meaning that they boast an international guarantee of total fibre-and-textile-product sustainability. Fabrics designed to help you enjoy life – and your sofa – together and without a care.

Smart
Fabrics that will suit any setting, whether it is classic or modern, and which have a huge colour palette that is easy to match and practical to use.

Premium
A top-of-the-line premier-quality edit for the most discerning customers. Ageless fabrics that bring to the fore the beauty of the products, imbuing their surrounds with an exclusive aura.

Trendy
Natuzzi Italia seeks out new fashion and design trends from all over the globe and puts its own spin on them. New sophisticated bold patterns come into being, expressing instantly recognisable, personal and spirited décor styles.

- **Water-and stain-resistant**
- **Washable with just water**
- **Greater resistance and durability**
- **Protection from mites & bacteria**
- **NO PFCs (Perfluorocarbons)**
- **Pet hair-resistant**

Performance
Natuzzi believes that comfort means enjoying life without having to worry. This is why we have developed a range of innovative fabrics that allow you to easily wipe away stains, using just water and mild soap.
Our exclusive technology coats each fibre with an invisible molecular film which locks dirt out. A shield that not only makes the fabric stainproof, scratchproof, tearproof and antistatic, it also makes sure that the environment is respected (there being no PFCs or perfluorocarbons).
The Performance fabrics are the innovative part of the Natuzzi coverings catalogue. They retain all the beauty and durableness of the original, yet have a more practical surface for cleaning which also repels fur. So, dogs, cats and children can do their worst and you have no need to fear.

Discover the practical nature of Performance fabrics

Wood. Beauty in our neck of the wood(s).

For wood too, superlative quality standards stem from fine workmanship and stringent controls right across the production chain. Skilled cabinetwork (a jewel in the crown of Italian design from Gio Ponti onwards) reaches a pinnacle in the Natuzzi Italia collections which offer a broad array of finishes with exquisite detailing, but also extends to more modern furnishing styles. The timeless elegance of natural wood meets the edgy zeitgeist of lacquered wooden surfaces. Tables, chairs, sideboards and bookcases are not only versatile, but emanate warmth and are delightfully tactile. So that the chicest houses in the world can showcase a material whose beauty will never wane.

Marble. The preciousness of Nature.

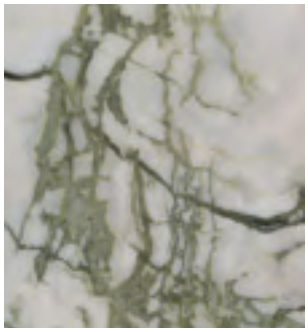

The marbles used for Natuzzi furnishings reflect the natural and ancient beauty of precious and elegant materials. Each vein and imperfection tells of this beauty. Quality, design and high aesthetic value meet in our products, breathing life into real masterpieces. From the rich colour and dense texture of Dark Emperador to the black beauty of Nero Marquina with its white-and-grey veins, the luxurious and sophisticated Travertino and the Marmo di Carrara chosen by Michelangelo for sculpting his masterpieces, all our marbles perfectly encapsulate our philosophy and commitment to make objects that last. And our designers use these stones to striking effect with exquisite contemporary flair, making sure that our products are instantly recognisable and in a league of their own.

Black Absolute / Black Granite
It is one of the darkest varieties of natural stone on earth. The dark-tone black Granite is called Absolute Black Granite. Granite is mostly used for external flooring, wall cladding, counter tops and vanity tops. Stone of African origin (Zimbabwe). Our tops have a matte and brushed finish achieved with specific diamond brushes. The surface has been enhanced with a final water-repellent treatment.

Antigua Green Marble
This marble has a green background with white veins and occasional nuancing that tends towards yellow.
This stone features fairly regular patterning. Green Antigua Marble is a kind of green marble quarried in Iran. It's also called Antigua Green Marble, Persian Green Marble, Green Antigua Persia Marble, Iran Antique Green Marble, Green Persia Marble, Classic Green Marble or just Green. The Antigua Green Marble used for our products has a matte brushed finish.
The surface has been enhanced with a final water-repellent treatment.

Glossy Calacatta Green
Calacatta Green is a precious marble with a white background and veining in a various shades of green. There is marked unevenness in the distribution of the veins. Slabs can have bold veining on some parts and be clear on others, making for a distinctive irregular appearance. It is of Asian origin and is specially processed in Italy. Being a marble of the sedimentary sandstone category, it also contains various types of crystals and grey stones distributed in a non-homogeneous way; these must be considered to be one of the qualities of this kind of marble.
The top surface is glossy. The surface has been enhanced with a final water-repellent treatment.

Matte Antique Pink Marble
Antique Pink Marble is a limestone with a brecciated appearance and uneven beige or light-green clusters embedded in an antique-pink matrix, hence its name. Of Italian origin, this beautiful stone comes in a host of different shades. Antique Pink marble commonly has whitish veins which are sometimes quite thick, giving it a painterly appearance. On a historical note, Pink Antique Marble has often been used for architectural work on private villas and churches throughout Italy and magnificent instances can be found in many ancient homes.

Glossy Lilac Marble
White lilac marble comes from Turkey and due to its distinctive veined appearance and natural beauty, it is suitable for elegant interiors. It has bold veining and a colour variation that ranges from purple to black.
Some slabs may have beige nuancing within. The top surface is glossy. The surface has been enhanced with a final water-repellent treatment.

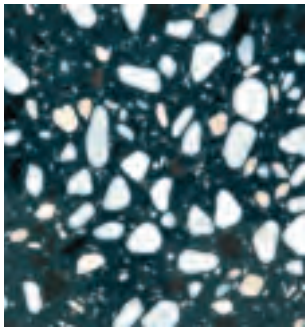

Invisible Grey
Marble of Italian origin. Like a piece of abstract art, Invisible Grey stone has impactful inimitable patterning that looks as if an inkpot has been shattered across a pure white slab. It ushers a sense of harmony and cohesiveness into your home. The eye is irresistibly drawn to trace the delicate dark-grey lines contrasted against the pure white background, and, as it does, the spirit is uplifted.
A superb addition to any setting, the dramatic beauty of Invisible grey reverberates with power and will provide a perfect backdrop to meaningful memories.

Sahara Noir
Sahara Noir is one of the most elegant marbles around. The black background with gold-and-white veins make Sahara Noir ideal for luxurious environments. Marble is formed through a metamorphosis process of sedimentary rocks. Its multiple colours stem from the presence of different minerals that overlap each other to perfection, creating shades and veins that have embellished houses and buildings of all periods and styles for centuries.

Athens Silver Cream
Athens Silver Cream is a neutral stone that is anything but plain. This attractive light-cream marble is characterised by a threadlike striated patterning that is delicate, yet distinguishing. Allows for flexible design choices.

Stardust Terrazzo Stone
Is an agglomerate composed of a precious mix of marble and resin grits that are carefully selected and customised for colour and size specifically for Natuzzi. The material is then finished and smoothed. It stands apart for its skilful blend of large pieces of marble and tiny stones with an iridescent appearance for a modern exclusive feel. The edges of the top are finished with a curved bevel. This material has an extraordinary resistance to abrasion and an even colouring. A top in STARDUST -Terrazzo Stone brings to mind “A Venetian Terrace”, something which the whole world recognises as being artistically and culturally superlative and representative of the area of Venice and Italian manufacturing in general. The combination of different colours and materials means that all aesthetic needs can be met, including the most modern ones.

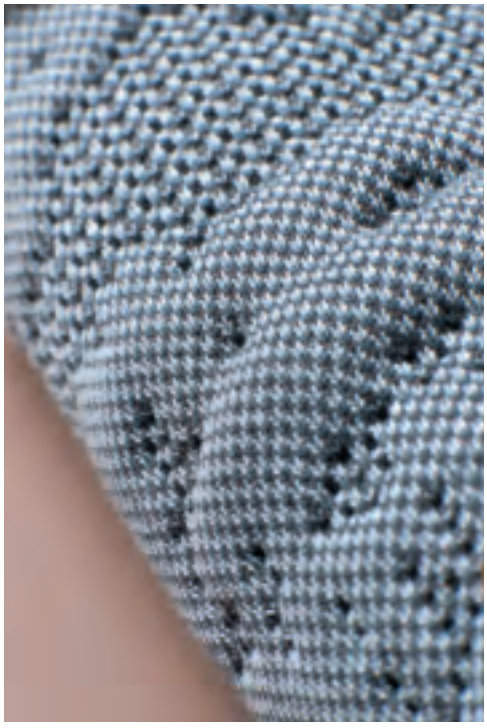

Fossena Stone
It is a limestone of North-African origin quarried in Tunisia. It is a stone with a compact and homogeneous background that is grey/brown in colour. This material stands out for its minimalist appearance, enhanced by a homogeneous and uniform structure. Flitting rust-coloured shadows and subtle ivory veins enliven the surface of the Fossena stone. The presence of some white salt or dark spots are another feature of this material. Fossena grey limestone is a sedimentary stone of marine origin and consists almost exclusively of the mineral called calcite. Small quantities may also contain dolomite, quartz and other clay minerals. These mineral or organic additives give limestone a heterogeneous colouring.

Travertine Titanium
Titanium Travertine is a special variant of the more classic travertines. Originating from Iran, it has an astoundingly attractive brown colour that can verge on various nuances of grey. This material is increasingly used in modern-looking settings and often combined with steel and concrete. Travertine belongs to the limestone family and is a sedimentary stone of continental origin. Travertine is a mono-mineral rock, meaning a rock composed of a single mineral. Its main component is calcite. It may also contain clay minerals, haematite, limonite and quartz. For this reason it can take on different colour variations. As it is quite soft, it is easy to work with and particularly suitable for interiors.

Fossena Stone
Bio-Malta (Bio-Mortar) is a coating consisting of a single-component mortar in an aqueous emulsion and natural fillers such as quartz, marble, recycled glass, terracotta powder and mother of pearl. It is a bio-compatible and eco-sustainable finish which is also odourless, non-toxic, stain-proof, non-slip and easy to maintain. It is applied entirely manually. This gives it a clearly artisanal look and an exclusive refined appearance. Highly specialised craftsmen work with care and skill on every single piece, guaranteeing outstanding quality standards.

Natuzzi comfort

Comfort is one of Natuzzi Italia's most prime concerns and the tenets of its philosophy and lifestyle approach hinge upon it. Padding provides the greatest guarantee of comfort. It must give the body support, achieving the right balance of plumpness, softness and bounciness, yet also keep its shape over time, so that everyone can enjoy a quality lounging experience even years down the line. This is the reason why Natuzzi Italia carefully selects and combines its padding materials; they are subjected to tests which mimic day-to-day usage and wear-and-tear on typical parts, such as the backrest, seat cushions, headrest, armrests and cushions.

Special Fillings

Polyurethane
Polyurethane is a rubber with several important features: it is non-allergenic, anti-bacterial, flexible and hard-wearing. Our Natuzzi polyurethane is manufactured without using freon or other potentially toxic agents.

Shape memory foam
This is a polyurethane which changes shape according to the weight it bears. What this means is that it adapts to the body, offering supreme levels of comfort.

Climalight
Anatomical, breathable and totally non-allergenic, this innovative material is a special blend of polyester microfibres which gives a plush "down-like" effect.

Down
Natuzzi's goose down filling is Class 1 (UNI EN 12934/01): non-allergenic and flame-retardant, it has undergone a variety of different sterilisation, enhancement and washing treatments which are a guarantee of the utmost hygiene.

A certified commitment.
Natuzzi was one of the first companies in the furnishing industry to set in motion a certification process with the major universally-recognised certifying bodies. Still today, its commitment is real and ongoing.

Quality System Certification according to ISO 9001 standards

It ensures that quality procedures are compliant with international standards and the end customers' expectations. It is the best-known international standard and an opportunity for Natuzzi to preserve and improve a Management System which takes into account all corporate processes so as to ensure the optimisation of resources, reduce production costs, achieve set targets and maintain constant quality levels that will raise overall customer satisfaction.

ISO 14001 Environment Certification

It certifies that the impact of manufacturing activities on the environment is constantly checked.
More specifically, it relates to the design and creation of prototypes by setting up projects for wood processing, sewing, assembling and bonding operations. This certification is indispensable if we are to guarantee high levels of sustainability.

OHSAS 18001 – Safety on the workplace

It sets forth the terms of our commitment to the safety and health of our workers on the workplace.
Developed by the British Standards Institution, it is an international benchmark and a vital yardstick for Natuzzi which strives for constant improvement in the management of its human resources, being, as it is, aware that people drive success and are an invaluable part of the system.

FSC® Forests and timber

This guarantees that the timber used for manufacturing purposes has been sourced from responsibly managed forests and that the social, economic and environmental needs of current and future generations have been respected. The Forest Stewardship Council certification was awarded to Natuzzi by the Bureau Veritas certifying body.

Ergocert Ergonomic Certification

"Human-Centred Design" certification attests that the ergonomic requirements assessed by Ergocert (the leading European Certifying body for Ergonomics) have been respected. The guidelines regulating Human-Centred Design guarantee that the whole design and production process takes into consideration the needs of the final user and offers an experience of unparalleled comfort.

amalia pages 291, 297

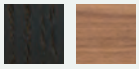

by Bernhardt&Vella
Amalia is an invitingly warm and welcoming nest, ideal for relaxation. A sofa with rounded lines, but also an armchair and an inviting dormeuse. Amalia is also available without armrests, a perfect solution both in a living room and in a sleeping area.

Padding
Its original rounded backrest embraces two large cushions filled with high-density polyurethane foam and Climalight padding and Climalight padding which helps to improve comfort, while making it look invitingly soft and reassuring.
Available in over 200 colours, the upholstery comes in fabric or exquisite Natuzzi leather.

The front feet are slightly higher than the back ones:

feet height
11.0/26.0 cm | 4.3/10.2"

Feet available in wooden finishes

- European walnut

available versions

argo page 319

by Paola Navone
Available as a 2- or 3-seater, or in the swivel-base armchair version. The softness of its shape is accentuated by two gigantic clips sinking into and grasping the backrest – traversing it to shoulder height – and culminating in a bow detail at the back with a pop/glam vibe.

Padding
Mixture of premier-quality fillings: certified polyurethane, 4 cm of Memory Foam and Climalight - a special filling that reproduces all the fluffiness and supreme comfort of down.

Coverings
Available with a leather or fabric covering, or with the BYBORRE covering designed by the Dutch textile-innovation studio BYBORRE, using a yarn that combines premium-quality wool and PES.

Concealed feet
in scratchproof metal.

balance page 380

by Natuzzi Design Center
Sofa available in linear and corner versions. Two different seat widths that let you choose the one best suited to your needs.

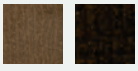

Relax functions
Adjustable headrest on each seat, including corner seats, to satisfy all comfort requirements.
Built-in lumbar cushions for excellent lower-back support.
Soft Touch system available on each seat, controlled by a button located between the seat and the armrest: a single touch activates the recliner function, opening the seat, backrest and footrest. Watch TV comfortably even when lying down. The Zero Wall space-saving system means the recliner function works without the need to move the sofa away from the back wall.

Additional options
Audio system with built-in, bluetooth-enabled speakers (available on 3-seater and recliner-function sofas).
The armrest features refined leather details that can either match the colour of the fabric or contrast with it.

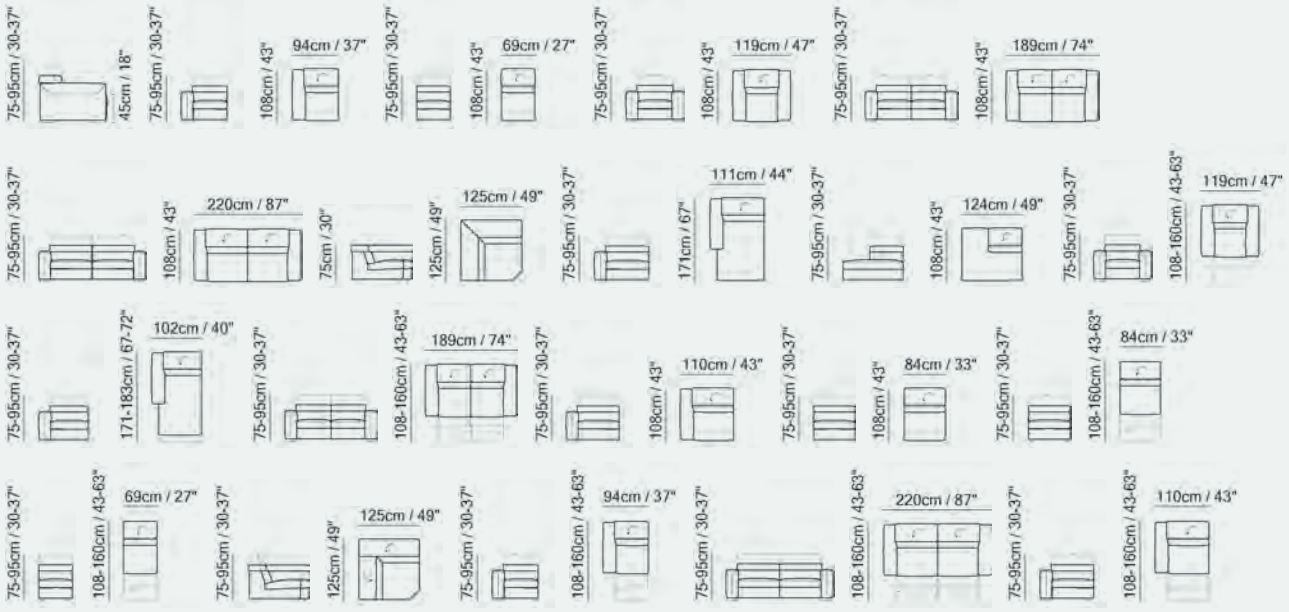

Coverings
Coverings in fabric or Natuzzi leather, available in over 200 colours.

cape pages 140, 598

by Marcel Wanders studio
Available as a sofa with 2 or 3 seats, as an armchair or as a lovechair with a high backrest. Cape is completed by a dining table, chairs, coffee tables, a chandelier, a rug, vases and dishes in the same style.

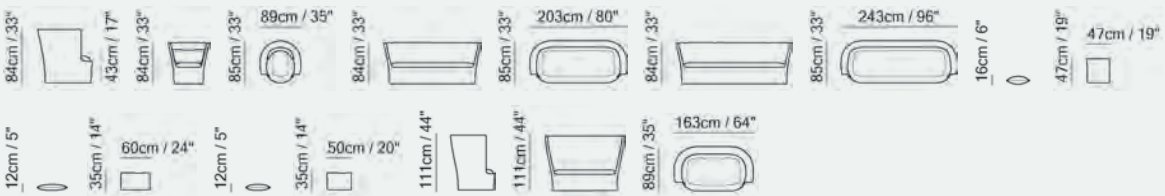

Additional options
The loose backrest cushions are padded with soft goose down and are available in leather or fabric, including in a covering that differs from that of the sofa.

Padding
The mix of padding in high-quality polyurethane and Climalight, a special breathable and hypo-allergenic silicone microfibre, provides support and a look that remains unchanged over time.

Coverings
Available in over 200 colours, the wide range of coverings comes in fabric and fine Natuzzi leather. In the leather version, the seams are raw cut, highlighting its craftsmanship.

Hidden no-scratch and non-slip metal feet.

available versions

cava page 210

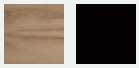

by Mauro Lipparini
Perfect for any living-room space, with its modular elements which can be positioned at will (even independently) as they are upholstered on each side.
Its decorative profile and solid-wood base are design details which place this sofa firmly at the heart of any space it is used in.
Cava can be used to create an almost infinite number of compositions in a mixture of leather and fabric seat modules, with various different mechanisms in the same combination.
The sofa can be customised by combining the upholstered seats with wooden table tops in various different shapes and sizes.

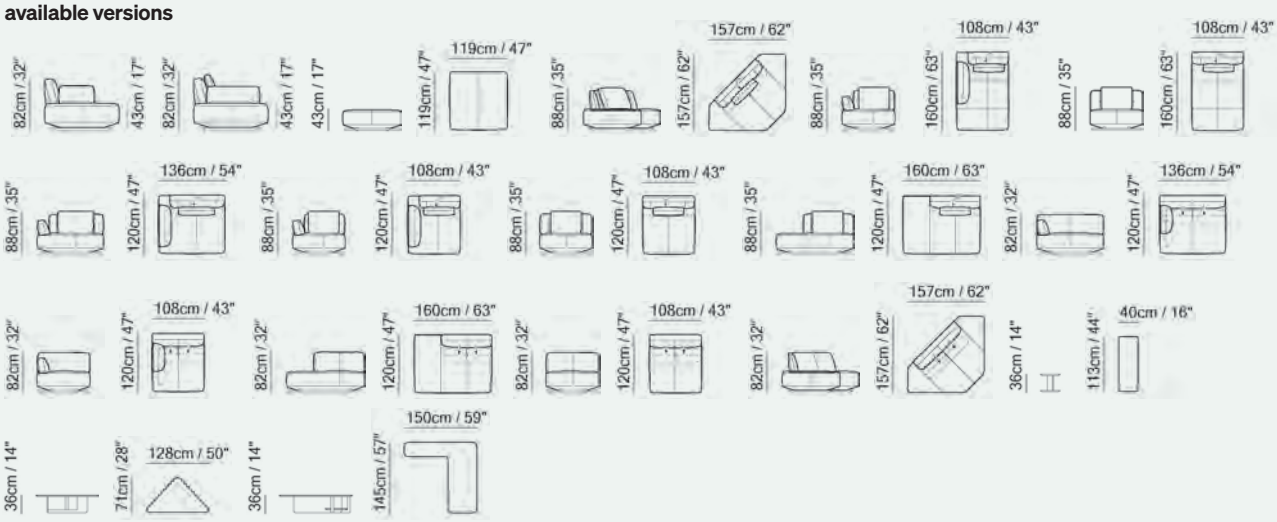

Padding
The seat cushions have all of the comfort and quality of polyurethane and Memory-Foam padding, which ensure that its good looks and support are long-lasting.

Relax functions
Each module will have one of two mechanisms available - a manual flip mechanism moves the backrest from a vertical to a horizontal position, while the electric sliding mechanism moves the backrest and armrest back and forth.

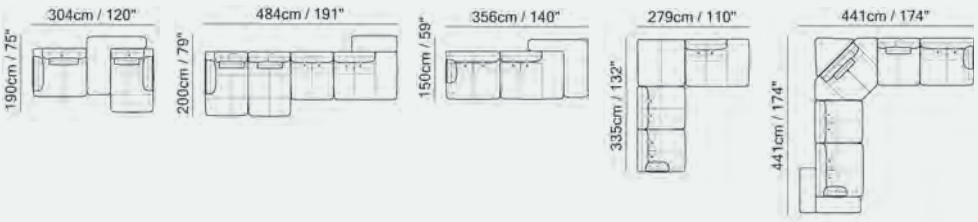

The seats are supported by a tubular solid-wood base in a ash-wood tobacco-brown finish combined with a metal coffee finish (with anti-scratch foot liners).

colosseo page 234

by Mauro Lipparini
A totally modular sofa, available in in-line and corner versions and with or without a relax function, to satisfy every space and style need.
Each seat element, with the exception of those equipped with the relax function, is upholstered on each side so it can also be used individually.

Relax functions
Triple-Motion function available on each seat: three independent motors allow you to adjust the position of the headrest, backrest and footrest as desired.
The Zero Wall space-saving system activates the relax function without the need to move the sofa away from the wall behind.

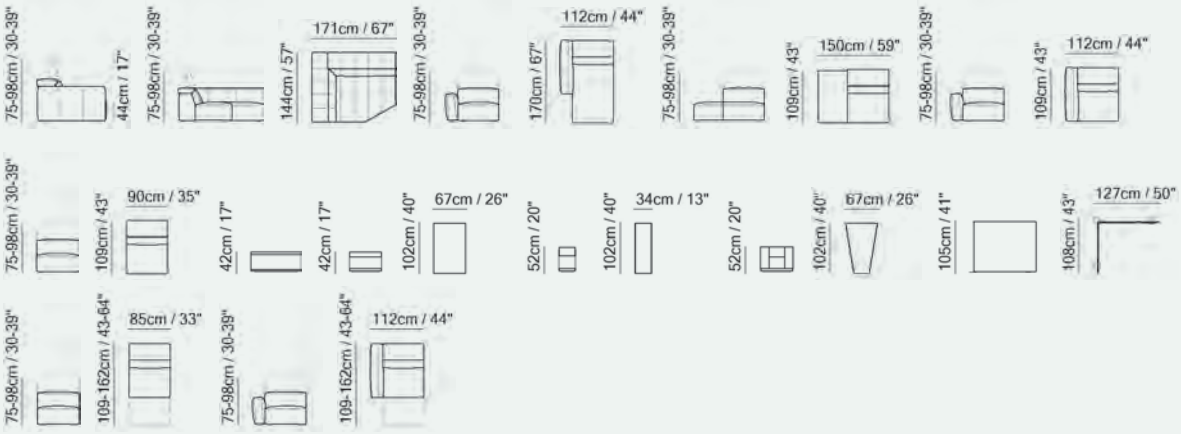

Additional options
The composition can also be equipped with free-standing panels to create more intimate, cosy corners and to divide the rooms of the house.
The model is highly customisable: you can combine different seat elements upholstered in leather and fabric. It can be integrated with open storage units that serve as an armrest or shelf.

Padding
The mixture of padding in polyurethane, Memory Foam and 100% goose down provides support and a look that remains unchanged over time.

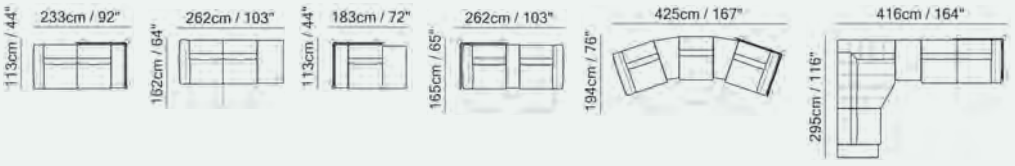

Coverings
Available in over 200 colours, the wide range of coverings comes in fabric and fine Natuzzi leather.

Hidden no-scratch and non-slip metal feet.

galaxy page 414

by Natuzzi Design Center
Galaxy lives up to its name with a galaxy of versatile design elements with linear and corner versions, suited to every space and lifestyle.
You can choose seats that are smaller or larger, depending on your space and comfort requirements.
The model offers the utmost in terms of versatility and comfort and you can choose from:
- a version with recliner mechanism that can be activated separately on each seat, headrest and footrest.
  The headrest has a dual function: it can be raised to provide enhanced comfort for taller people and reclined forwards manually to achieve the desired position while watching TV or reading a book.
- version with height-adjustable headrest
- version without recliner mechanism.

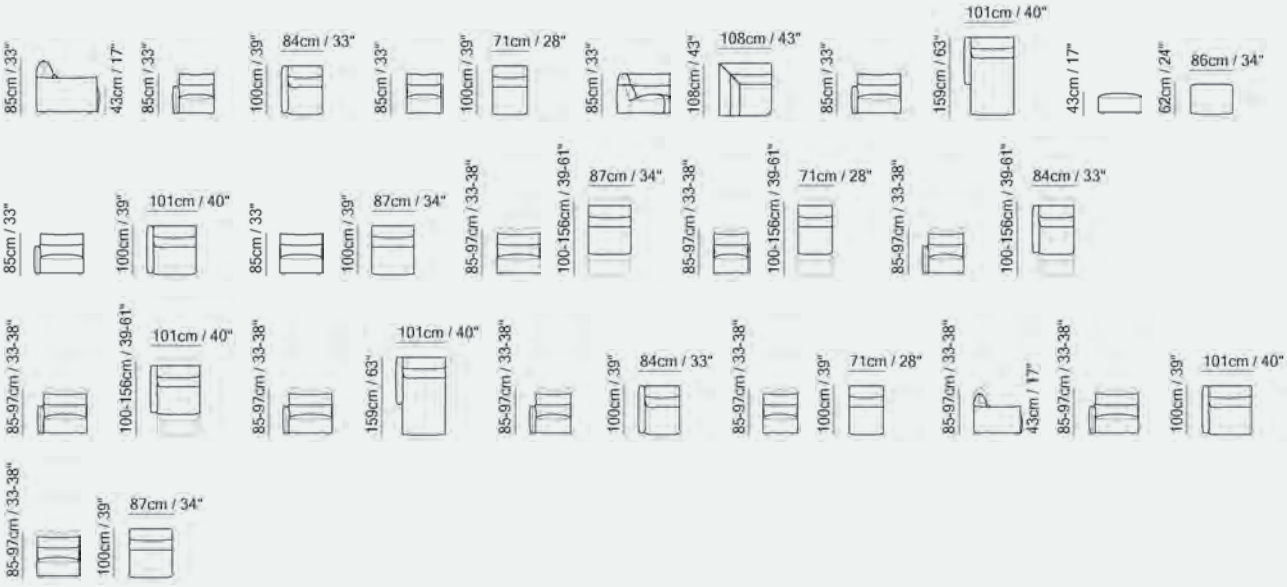

A corner version may include all the different options described.

Relax functions
The Zero Wall space-saver system enables the recliner mechanism to be activated without having to pull the sofa away from the wall.

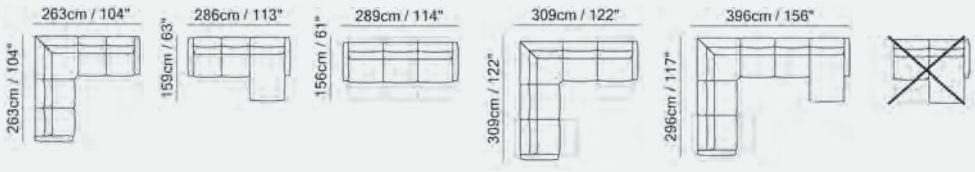

Coverings
Galaxy's linear design can be upholstered in high-quality Natuzzi leather or fabric. This model has an exquisite leather insert on the armrest.

wave pages 182, 186

by Nika Zupanc
Linear sofa available in 3-seater and 2-seater versions, together with an armchair and pouf. *Wave* boasts an elegant, sophisticated concept with a vintage charm which, in its enveloping shapes and sinuous lines, evokes the flow of sea waves.
Curved to surround both the circular seat and the back cushions, the backrest creates a cosy and intimate space.
The metal base has undergone a polishing and powder-coating process, a protective and decorative finish that guarantees superb scratch-resistance, exceptional durability and ease of cleaning.

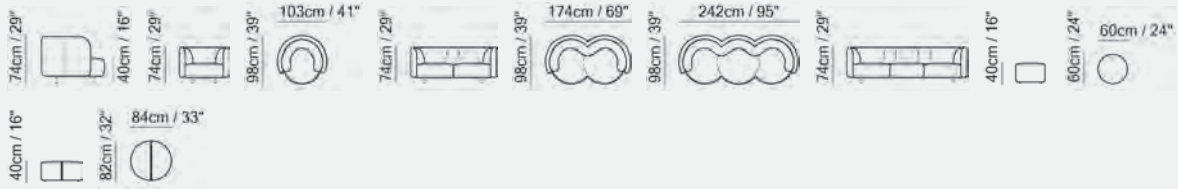

Padding
The circular-shaped back is composed of a plywood frame upon which is placed an *undulating* cushion of high density polyurethane foam, ensuring maximum comfort.
The padding of the seat and back cushions are composed of a quality-certified high-density polyurethane.

Coverings
Upholstery is available in a wide range of fabrics and leather.

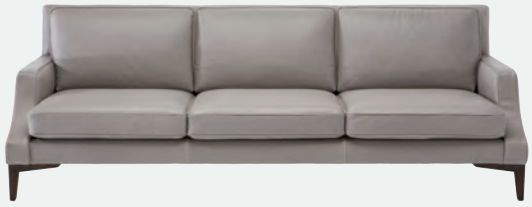

Feet height

re-vive casual page 512

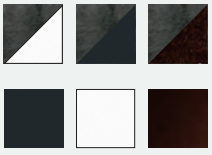

by Natuzzi Design Center
Ergonomic shapes and cutting-edge technologies combine to offer an experience of absolute comfort.
It is the only armchair in the world that adapts to any seating position. Curled up, stretched out, in a log position, head down... finally, everyone can indulge in complete relaxation, exactly how they like it.
The personalisation process begins from the design, aiming to satisfy every stylistic taste: more welcoming, more contemporary, softer, more linear.
King or Queen? Choose your ideal seat size for maximum comfort.
The foot of each Re-vive armchair is supported by a base which mirrors its movements. The base is available in a variety of finishes.

Additional options
Optional coordinated footrest also available.

Coverings
Armchair upholstered in fabric or exquisite Natuzzi leather.
The vast colour range available was created on the basis of a careful study of international colour trends.

adore page 176

by Nika Zupanc
An iconic and sensual armchair composed of a single-piece frame and a high and voluptuous backrest: it spins around with a touch of *hi-tech glamour*.
The cone-shaped base with *swivel* mechanism is composed of brushed metal with a *light-gold* finish. The metal has undergone a polishing and powder-coating process, yielding a protective and decorative surface that guarantees superior scratch-resistance, exceptional durability and ease of cleaning.

Padding
Moulded polyurethane-foam structure with wire mesh support to ensure its rounded form and superb strength. Seat cushion comes in processed polyurethane.

Coverings
Upholstery available in a wide range of fabrics and leather.

Base with *swivel* mechanism in brushed metal with a light-gold finish.

aftereight pages 455, 457

by Natuzzi Design Center
Perfectly-proportioned armchair with a vintage design. The elegantly quilted high back provides excellent support and comfort.
The elegant metal base, available in multiple finishes, elevates the model's sinuous lines.

Padding
The mixture of padding in polyurethane foam and ClimaLight guarantees unparalleled comfort with lasting support and a look that remains unchanged over time.

Coverings
Available in over 200 colours, the coverings come in fabric or fine Natuzzi leather.

The front feet are slightly higher than the back ones:

feet height

The front feet are slightly higher than the back ones:
feet height
10.5/3.5 cm | 4.13/1.4"

Feet available in wood finishes
- walnut
- wengé

cammeo page 423

by Maurizio Manzoni
The comfort of padding and the lightness of metal meet in an urban-looking design. The rear of the backrest and section below the seat are upholstered in leather.

Coverings
Armchair upholstered in fabric or exquisite Natuzzi leather.

Metal frame available in a metal finish
- glossy chromed

campus page 112

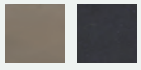

by Mauro Lipparini
Campus is perfect for any living room space with its modular elements which will help you create the right combination for your space and furnishing requirements.
Since seats are upholstered on all sides they can be placed separately throughout the house.
The slip cover underneath the seat elements prevents them from slipping out of position.
The Campus system also features tables, a sideboard, and a dining table and chairs.

Padding
The blend of exquisite polyurethane and Climalight padding, using special anti-allergy, breathable materials, ensures lasting good looks and support.

Coverings
Available in leather or in removable fabric. Unusually, the inside of the arm- and backrest are in suede, while the main frame is upholstered with irregular weaves available in 7 colours.

Feet height
11.0 cm | 4.3"

Metal feet available in two finishes
- glossy champagne
- matte black with anti-scratch foot liners

cassia page 352

by Mauro Lipparini
The deep seat and enveloping backrest provide an extremely pleasant lounging experience.

Coverings
Available in over 200 colours - in fabric, in fine Natuzzi leather or in a mixture of both.
In the version with two covers, the seat cushion is always upholstered in fabric and the internal and external body is upholstered in fabric.

Feet available in wooden finishes
- smoked oak
- European walnut

clemmie page 204

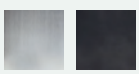

by Maurizio Manzoni
An angular take on the classic bergère with a British vibe.
The tone-on-tone decorative hem that runs along the profile of the armchair highlights the design.
The exclusive front bridge feet in metal are slightly higher than the rear ones in order to provide maximum comfort.

Padding
The seat cushion contains exquisite polyurethane and Climalight padding, special anti-allergenic, breathable materials that ensure lasting good looks and support.

dove page 132

by Marcel Wanders studio
Dove comes in two versions – either as a chaise longue or an armchair.
The chaise-longue is light and dynamic, drawing inspiration from the silhouette of a dove, and its backrest adjusts to two sitting positions.
Its original asymmetrical shape stems from the fact that the horizontal lines come in a different length to the base.
The swivel base is in black chrome metal with a handy return function.

Additional options
One of the armrests is topped by a practical wooden tray, which gives a special touch to the design as a whole.

Padding
The structure is made up of moulded structural polyurethane together with polyurethane foam.

Coverings
Available in a choice of 200 different shades, the chaise longue and armchair come either in fabric or exquisite Natuzzi leather.

Feet height
32.0 cm | 12.6"

Metal base available in
- glossy black metal

furrow

by Claudio Bellini
Available as an armchair or as a sofa with 2 or 3 seats.
The contrasting seams and raw-cut details along the profile of the armrests, seat cushions and backrest enhance the model's rounded design.
The unidirectional elastic straps combine special resistance and non-deformability properties with optimum support that is guaranteed to last.
Furrow is completed by a coffee table, storage ottoman, sideboard, chandelier, rug, vases and dishes in the same style.

Coverings
Cover in fine natural leather, including a version in two colours.

Padding
The mix of padding in high-quality polyurethane and Climalight, a special breathable and hypo-allergenic silicone microfibre, provides support and a look that remains unchanged over time.

itria page 264

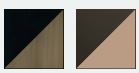

by Enrique Marti
The open base gives a touch of modernity and makes this model look slimmer. This bold-looking armchair features clean yet sophisticated lines.

Coverings
Available in a choice of over 200 colours, it can be upholstered in leather, fabric or in a mixture of leather and fabric
from Natuzzi's vast range.
The external shell in leather contrasts with the fabric seat and backrest, creating an interesting mixture of shapes and materials.

Feet height
32.0 cm | 12.6"

Metal structure with finish in
- burnished black with rings and tips in brushed brass
- chocolate brown with rings and tips in rose gold

jeremy page 369

melpot pages 109, 626

by Mauro Lipparini
Melpot is a symbol of modularity taken to its logical conclusion, making it the star of living spaces of any size.
All the individual elements are interchangeable and can be repositioned as desired, or used singly.
Ottomans, drawers, bookcase components and surfaces extend the versatility of the Melpot system, available in every linear and corner configuration, with or without chaise-longue.
A mini collection of cushions in different colours, materials and sizes with different functions elevates the model's pared-back silhouette and enhances comfort levels.

Coverings
With over 200 colours to choose from, the range of fabrics or fine Natuzzi leather coverings allows for personalisation according to your tastes and requirements. Some items are available in quilted leather and fabric.

Feet height
6.0 cm | 2.4"

skyline pages 28, 126

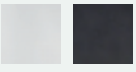

by Marcel Wanders studio
The modular seats are a masterclass of elegant craftsmanship.
Since seats are upholstered on all sides they can be placed separately throughout the house.
Finally, Skyline also features sofas, tables, lamps, rugs, mirrors, bookcases and a bar area with a coordinated and distinctly contemporary look.

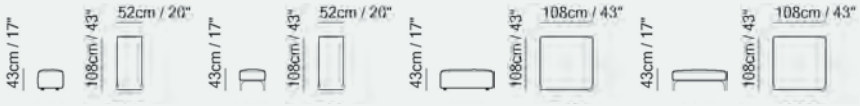

Padding
The exquisite high-density polyurethane padding is anti-allergenic, breathable and elasticated, ensuring maximum comfort and lasting support.

Coverings
Available in over 200 colours, the upholstery comes in fabric or exquisite Natuzzi leather.

Feet height
20.0 cm | 7.9"

Open-base modules with feet in die-cast metal available in two finishes achieved by means of a galvanising process
- glossy chrome
- glossy black

wave pages 182, 184, 186, 756

by Nika Zupanc
The pouf is composed of two half-moon shapes that can be joined in the middle by an elegant magazine rack made of curved, laser-cut steel sheeting with a polished and powder-coated light-gold finish and a smooth matte texture.

Coverings
Upholstery is available in a wide range of fabrics and leather.

Hidden feet

ambra pages 543, 548

by Natuzzi Design Center
Ambra chair is completely covered with fine Natuzzi coverings. The leather finish in particular emphasises Natuzzi's artisanal spirit and love of high-quality raw materials and processes. Ambra is available in two versions: with or without armrests.

With arms

  light gold

briq page 594

by Claudio Bellini
Available in different sizes to meet all space requirements.
Also equipped with bedspring.
Its pared-back aesthetic is a perfect counterpoint to the sumptuously padded and generous headboard.
Slats in solid beechwood - a hardwearing and extremely outperforming type of wood.
Frame in epoxy-powder-coated steel which is hugely resistant to chemical impact. Withstands corrosion, knocks and bumps.
The two-opening positions mean that the bed is easily accessible from all sides. The first 45° position allows you to gain access to the storage unit while the second position is horizontal and lifts the base about 70 cm from the ground, enabling you to make the bed up easily.

Coverings
Covering available in fabric or leather. The headboard is covered at the back as well so that this piece can take centrestage in a setting.

cala page 602

by Claudio Bellini
Cala is available in various sizes with a dual slatted base.
The most elegant, refined part of the design of this bed is its softly upholstered headboard which boasts vertical stitched details for a touch of dynamism.
The different positions of the front and back feet make the bed extremely elegant.
The optional secret box with its sliding drawer below the slatted base makes it easy to store away bed linen and other objects.
The Cala bed also features a bench with wood drawers available in the same coverings.

Coverings
The back also has removable covers in fabric or leather so the bed can even be placed in the middle of the bedroom.

diamante page 610

by Manzoni&Tapinassi
Padded bed available in various sizes. Also equipped with bedspring.
Fully padded, upholstered headboards and side rails.
The tall legs in lacquered metal infuse the design with an attractive airiness and make it easier to clean the floor.
The back of the headboard comes in one single fully-padded piece.
The curved headboard and hand-stitched detailing imbue this item with elegance and finesse.

Coverings
Upholstered in fabric or premium Natuzzi leather.

dolcevita page 618

by Manzoni&Tapinassi
Padded bed available in various sizes. Also equipped with bedspring.
Headboard with lavish hand-quilting and button tufting, making for an extraordinarily plush aesthetic.
Charcoal-grey metal feet thrust the bed up, giving it an airy elegance.
The open base makes for easy cleaning under the bed.

Coverings
Upholstered in fabric or premium Natuzzi leather.

ergo page 654

by Ross Lovegrove
The bed has soft, reassuring contours, in which the materials seem to spontaneously take on the sinuous and organic lines typical of Lovegrove's style.
The broad flowing headboard stretches out to form two bedside tables.
Frame in natural curved woods covered with sheets of wood, both FSC®-certified from forests managed correctly and responsibly, on the basis of rigorous environmental, social and economic standards.
Interlocking assembly with no metal parts. The water-based adhesives are formaldehyde-free.
Natural wax finish.
Mattress in 100% natural latex upholstered in a hemp fibre.
Headboard in 100% natural latex upholstered in a hemp fibre.
Bedspread in wool (40%), cotton (35%) and linen (25%).

The Ergo mattress has received the Human-Centered Design certification by Ergocert, the first European ergonomics certification body.

fenice page 624

by Bernhardt&Vella
Padded bed available in various sizes. Also equipped with bedspring.
Metal corner feet that enhance the structure's solidity and aesthetic appeal.
The storage-space opening mechanism allows for two possible positions: in the first position, the bed can be made without having to bend down; the second position allows for arranging objects and bed linen in the storage compartment without any hassle.

Padding
Feather and polyurethane-padded headboard.

Coverings
Upholstered in removable fabric or premium Natuzzi leather.

piuma page 632

by Claudio Bellini
Padded bed available in different sizes.
Also equipped with bedspring.
Fully padded headboard and base.
The open base makes for easy cleaning under the bed.
The ruffle detail around the rim of the bed evokes the slightly puckered surface of a pillow edge.

Coverings
Upholstered in fabric or premium Natuzzi leather.

svevo page 638

by Manzoni&Tapinassi
Padded bed available in various sizes. Also equipped with bedspring.
The open base enhances the model's lightness and linear silhouette.
Fully padded headboard offering maximum comfort.
The solid-wood leg with a metal detail is visually striking and gives an impression of sturdiness.

Coverings
Upholstered in fabric or premium Natuzzi leather.

venere page 644

by Bernhardt&Vella
Padded bed available in different sizes to adapt to every space requirement.
The ergonomic design of the headboard which is padded with high-quality polyurethane offers comfort and support.
The headboard is also upholstered at the front to allow you to place the bed in the middle of a room.
The tastefully upholstered conical feet taper downwards, visually lightening the design.
The Venere bed elegantly furnishes the sleeping area and is completed by a bedroom system of the same name, consisting of bedside tables and drawers.

Coverings
Available in over 200 colours, the coverings come in fine Natuzzi leather or in a mixture of leather and fabric.

cabaret pages 342, 359, 371, 482, 490

by Natuzzi Design Center
The frame is in tubular metal painted with different finishes. The Cabaret line of coffee tables includes the following versions: square and round centre tables; round and square corner tables; a rectangular console table. Some versions of the Cabaret table are available with a white Carrara-marble or titanium-travertine top that has undergone a special sanding and brushing process and is protected by a special stain and scratch-resistant coating.

frost pages 153, 156

by Claudio Bellini
The glass seems to rest as if by magic on the stone bases. A skilful mixture of materials creates a sophisticated and elegant proposal for the living area.
Frost collection introduces the Fossena Stone to the Natuzzi collection. It's a limestone of North-African origin and quarried in Tunisia. The stone has a compact and homogeneous background and is grey/brown in colour. Flitting rust-coloured shadows and subtle ivory veins enliven the surface of the Fossena stone.
The presence of some white salt or dark spots are another feature of this material. Available in both central and accent versions, this set of tables features two bases (cylindrical and rectangular) completely made of stone and attached by a pewter-painted steel tube.
Top in extra-clear tempered glass with a finished and polished edge (10mm thick). All the glass parts are secured to the stone bases with electro-welded steel elements and a UV gluing technique.
The glue used to weld the glass plates is cured with U.V. lamps; this creates a very strong bond. This gluing technique guarantees maximum effectiveness and resistance as well as great transparency.

Round central

herman pages 53, 54, 61, 62, 67, 91, 94, 168, 408, 412

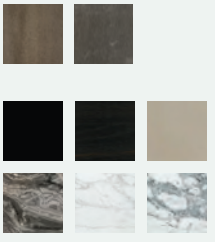

by Manzoni&Tapinassi
The Herman coffee tables are characterised by refined materials and a rigorous, precise style that makes them truly timeless. The frame of the Herman line is made of pewter-finished metal and bronze treated with a special scratch-resistant protective coating. Choice of mixed precious materials (top in wood or marble or glass) gives a very sophisticated and refined look. The various configurations can be combined to create unique arrangements that fit perfectly into their environment.

ika pages 69, 72, 77, 80

by Mauro Lipparini
Ika is a complete set of coffee tables. The base of the coffee tables has been turned and polished comes in powder-coated tubular steel with a smooth bronze-coloured surface. The special painting based on polyester resins without pigments and additives has an excellent durability and guarantees excellent preservation of the brightness as well as colour stability. The base has a specially designed decorative foot in black ABS non-slip and non-marking plastic. The top has a bevelled rounded edge. The accent version with a lacquered top is equipped with a mechanism that allows you to adjust the height to different positions and adapt to the space available.

labirinto pages 337, 391, 392

by Claudio Bellini
The Labirinto tables have castors making them easy to move around while the double-top coffee table can be used as a bookcase. Tempered glass available in various colours combined with mirrored glass partitions for a refined and contemporary look. All the glass parts are attached to electro-welded steel elements by means of a UV gluing technique. The glue used to weld the glass plates is cured with U.V. lamps; this creates a very strong bond. This gluing technique guarantees maximum effectiveness and resistance as well as great transparency.

by Claudio Bellini
Ombra has an asymmetrical supporting leg and metal base that simulates the reflection of its upper shadow. Table with thick pewter painted steel base (8mm) to guarantee greater stability.
Leg painted and varnished curved wood with a decorative Bio-Mortar finish. It has a matte bio-compatible and eco-sustainable surface which is easy to maintain. The bio-mortar is an aqueous compound of single components with a mixture of natural materials and a thickness of about 2mm. The entirely manual technique means that there are distinctive on-of-a-kind marks which create a uniquely refined effect.
An alternating running flame technique has been used to emphasise the grain of the top and characteristics of the wood.
The wooden top is supported by a painted metal underlay that is attached to the leg via an internal metal core.

plissé pages 354, 382

by Victor Vasilev
The visual airiness of Plissé conceals a solid structure consisting of modular panels held together by supporting shelves. Simple design and great versatility combined with different materials. Its free-standing design makes it highly versatile and equally suitable for home and professional environments. Plissé' can be used in the middle of a setting as a room divider. The Plissé Bookcase is made of coated wooden panels and is suited to contemporary and classical environments. Shelves for the fixed version are available in tempered glass and/or different lacquered colours. The bookcase is equipped with adjustable feet that provide better stability and functionality.

tide pages 186, 188

by Nika Zupanc
Modular bookcase with elements available in two sizes that can be superimposed and combined with each other to create different compositions. A laser-cut curved steel sheet that is polished with Interpon powder coated with a smooth, matte gold-tone finish. The special painted finish creates a protective and decorative surface that guarantees high scratch resistance, exceptional durability and easy cleaning. Fully assembled structure with 3mm-thick painted steel shelves. The structure is equipped with a wall hooking system to ensure greater stability and anti-tipping safety. The small module can be hooked to the wall and placed alongside other elements of the same version to create suspended compositions.

kubika pages 366, 433

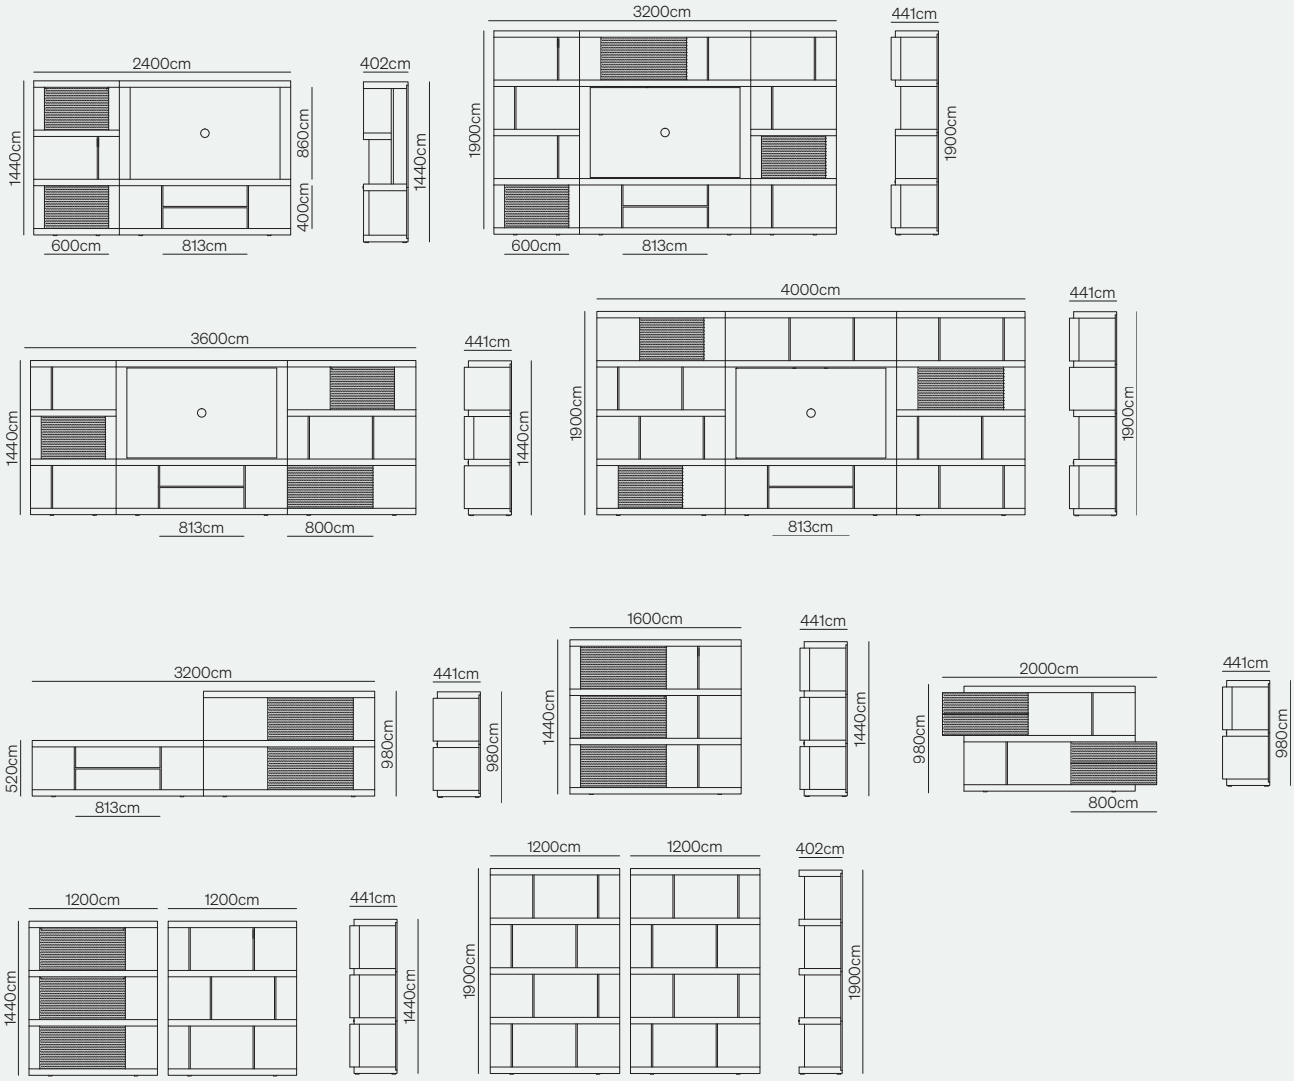

by Pierangelo Sciuto
Kubika features modular units, open compartments and storage spaces, making this wall unit a highly-customisable option. Each single element can be easily combined with the others, meaning that you can fill a wall without neglecting the aesthetic side of things. For the storage boxes, the glossy lacquered finish is only available for the doors, drawers and DVD holder; on the other hand, the coordinated structure always comes with a matte finish. All elements and their various parts are tested for scratch resistance, abrasion resistance and resistance to light.

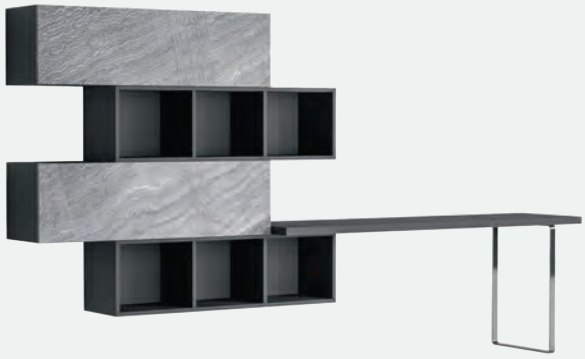

Two special metallic finishes are available (Glossy Black Chrome & Nickel Silver) for the doors of the storage units for some compositions.

The Nickel Silver finishes are available only for the cabinet doors, while the matching structure always comes in lacquered matte graphite.

The Kubika has a structure that can be purchased:
- In engineered wood with an open-pore smoked oak surface
- matte lacquered (various colours are available depending on the suggested compositions)

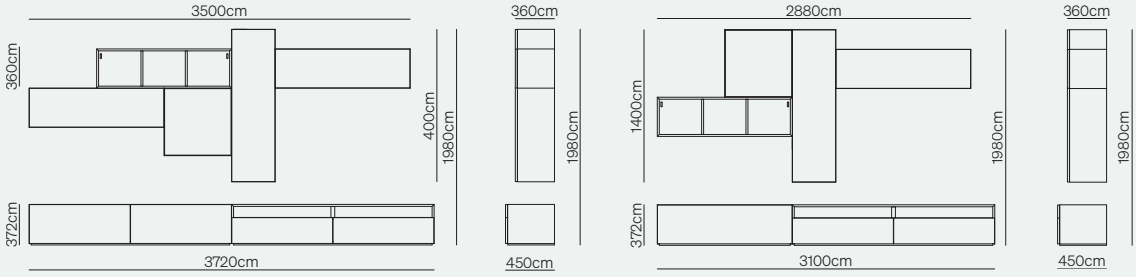

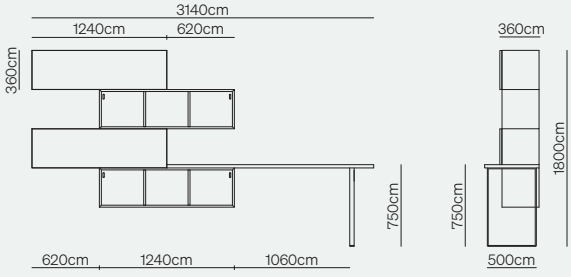

novecento pages 343, 346

by Natuzzi Design Center
Novecento is a modular wall-unit system made up of elements which can be combined together to create different compositions. Natuzzi recommends the set combinations available on the catalogue which will complete the Natuzzi Total living concept. The elements are immensely varied so they will meet a whole variety of customer needs: space for TVs and hi-Fi systems, big drawers, wall cabinets with doors or open cabinets, drawers, a desk area and even bookshelves have been designed to improve functionality: all the units have been carefully detailed so that the customer can organise their space to suit their requirements.

The storage cubes and drawers are available with different opening systems: doors with a push-pull mechanism, soft-closing drawers and fall-front doors. Novecento is available in a variety of lacquered finishes and can be combined with some configurations with wooden and glass doors. The lacquered finishes are obtained via a solvent-free, water-based painting process; all the wall-unit components are tested for scratch and abrasion resistance and light fastness as well as being compliant with REACH regulations.

skyline page 578

by Marcel Wanders studio
The Skyline Bar Desk is a simple yet exquisite piece of furniture that has evolved from our Natuzzi lifestyle concept and our idea of home living.
It abounds in shelves and storage compartments for every kind of cocktail and drink preparation. Useful drawers for tablecloths and napkins.

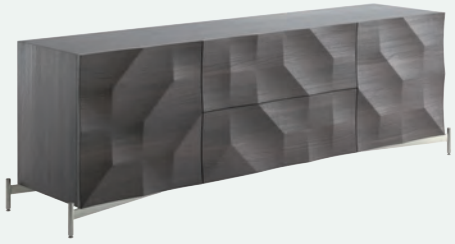

Bar Desk with storage structure and shelves in black ash wood with a matte finish.
Exterior coated with tempered mirrored smoky glass.
Details in polished tubular steel.
Top in absolute black granite with a polished and brushed surface achieved with specific diamond brushes and featuring a matte effect. Granite top enhanced with a water-repellent, stain and anti-scratch treatment.
Visible edge polished and brushed to match the top .
The cabinet interior has been fitted with extra drawers that can be partially opened and features decorative metal-painted handles.
Drawer fronts in black ash wood.

amber page 558

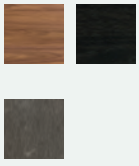

by Jamie Durie
The Amber bedroom furniture collection features an undulating, three-dimensional surface achieved by the use of cutting-edge CNC machining technology. The natural timber grain is juxtaposed against a series of intersecting scalloped surfaces, striking a delicate balance between natural beauty and industrial craftsmanship. Delicate aluminium feet ensure a slender gracefulness to each piece in the collection. Doors are in stratified wood engraved with special "membrane press technology" achieved through a 3D processing technique. Drawers are equipped with the push-pull opening mechanism and soft closing action. Bedroom sideboard and dressers structure made with walnut or smoked oak wood.

by Victor Vasilev
The Leggero set includes a sideboard, cabinet and television unit. With a contemporary look, the Leggero showcase has an exquisite solid-wood frame which encases an extra-clear glass panel so objects are visible from all sides. One distinctive feature of the design project is the refined counterpoint between the sturdy robustness of the wood and the airy delicacy of the glass The door legs and frames as well as the base are completely made from walnut or oak solid wood; the interiors are lacquered in matte colours. The fully-opening doors come in extra-white tempered glass and the shelves come in bronze tempered glass.
The TV Unit was designed for all forms of home entertainment and includes a home theatre unit, DVD player and hi-Fi audio systems for a contemporary home with concealed cables. The door legs and frames as well as the base on both the TV unit and sideboard are made from walnut or solid smoked oak. Interiors and exterior are lacquered in matte colour. The doors come in wood while the sideboard has a glass panel in extra-white tempered glass. The shelves inside the sideboard are in bronze tempered glass.

by Natuzzi Design Center
A Pumo is a traditional craft item from the Apulia region. It is handmade with lathe machines and glazed inside ceramic Apulian kilns. The size and colour of these craft items may change and any variations must be understood to be part of the artisanal process and a mark of its genuine handmade Italian character.

- 55 cm h 15 cm
  21.65" h 5.91"

Finish
white ceramic

voyage magazine holder pages 182, 184, 186, 832

by Nika Zupanc
Made of curved laser-cut sheet metal, this magazine rack is polished with interpon powder and coated with a matte, gold-coloured smooth finish. Its exquisite gold-tone metallic finish gives it a jewel-like appeal. Positioned next to the seat or integrated into the pouf, it offers new furnishing solutions. The special paint creates a protective and decorative surface that guarantees high-scratch resistance, exceptional durability and easy cleaning. It is a single element that can either be placed on the ground next to the seat or integrated into the Wave pouf.

Magazine holder
- 67 cm x 53 cm H 41 cm
  26.38" x 20.87" H 16.14"

Finish
light gold

trullini pages 195, 320, 433, 605

by Natuzzi Design Center
Candles or air scents with natural oil extracts, the Trullini cover five olfactory areas, each with its own distinctive colour and key note. Even after the fragrance finishes, these unique artisanal products become functional containers for small and precious objects. The clay is extracted from a quarry used since Etruscan times, then hand-turned and glazed. The textured clay base is embellished with drops of kiln-baked aventurine.
