INTERLOCKING LVT COLLECTION

CAMARO™

RIGID CORE

INTERLOCKING LVT COLLECTION

Create an entrance

Clear the floor for the next generation of Camaro, the leading LVT brand continues to evolve. Conceived using the latest market innovation and advanced product technology, Polyflor introduces Camaro Rigid Core. Combining style with enhanced durability, Camaro Rigid Core is specially engineered with a **Stone Polymer Composite (SPC)** construction providing supreme strength with ultra-hard wearing properties.

The rigid construction can be laid over most existing floor coverings, significantly reducing installation time and making it a firm favourite with busy, fast paced lifestyles.

With 3 striking formats to choose from, Camaro Rigid Core makes stunning design easy to achieve straight from the box.

Herringbone

Plank

Tile

WHY CHOOSE CAMARO™ RIGID CORE?

The new multi-layered vinyl planks and tiles are designed to fuse supreme strength with ultimate comfort. Each individual layer provides a unique benefit.

PRESS FIT TECHNOLOGY

Advanced 5G® **press fit** technology ensures Camaro Rigid Core is swift and easy to install. The SPC rigid core layer provides a perfect stable base for the innovative 5G® locking mechanism which is activated by an audible click, with minimal force from a simple pressing action.

For added peace of mind, Camaro Rigid Core is covered by our 10 year residential guarantee against manufacturing defects.

OUR PROMISE TO YOU

We understand the importance of choosing the perfect flooring for your home, but also for your lifestyle. That's why Camaro Rigid Core has been developed to meet the highest technical specification of its product type. Tried and tested, it is suitable for all areas of the home and our product boasts ultimate performance with exquisite style.

Compared with many natural flooring options, Camaro Rigid Core will under normal conditions resist household stains and will not crack, chip or splinter. The manufacturers of Camaro Rigid Core are confident that their high quality products will provide many years of valuable service. All products purchased from the range are guaranteed for 10 years against normal wear and tear in the recommended environment, provided that they have been fitted correctly and maintained in accordance with the manufacturer's instructions. Full terms and conditions of the guarantee are available on request from your flooring wholesaler or Polyflor Ltd.

Herringbone

Thanks to its timeless appeal, herringbone floor design is more popular than ever. A herringbone floor is the perfect solution to bring symmetry and balance to an interior scheme, as well as offering space enhancing benefits by giving the illusion of larger rooms. Each herringbone design in the Camaro Rigid Core collection has been expertly developed to replicate authentic wood grain texture, combined with multi-tonal variation for added movement, character and depth within your herringbone floor.

4146 Fenland Oak

Mid-toned oaks are an effortless backdrop for a wide range of interiors. We've laid Fenland Oak in a rustic inspired bathroom. Exposed brickwork paired with natural wicker accessories perfectly complement warm grain and tonal variation within the planks. Being 100% waterproof, Camaro Rigid Core is an ideal choice for bathrooms!

4149 Soho Cement

4151 Tribeca Cement

4152 Goldstone Micro Terrazzo

4153 Pearl Micro Terrazzo

4149 Soho Cement

Cement floor design is a growing trend and continues to be a firm favourite with interior designers. Soho Cement displays warmer tones than most traditional cements which in turn, helps to brighten a design scheme. We've laid Soho Cement in a quiet reading nook. It perfectly offsets the cool grey furnishings and feature wall to create a balanced and inviting interior space.

5 STEP GUIDE

TO YOUR PERFECT FLOOR

1 BE INSPIRED

The first stage of designing an interior is refining your ideas and planning your finished look.

3 ORDER FREE SAMPLES

Free samples of each shade are available to order through our website polyflor.com or call the dedicated Polyflor Samples Hotline on **+44 (0)161 767 2551**.

5 ENJOY YOUR NEW FLOOR

We want you to enjoy your floor for years, so we have prepared a list of top tips to help you keep your floor looking as good as new, see full brochure for more details.

2 SELECT YOUR FLOOR

Browse our brochure, shadecards and retail presenters at your leisure and make a shortlist of your favourite designs.

Our room visualiser is also available to help you picture any design instantly, in every room of your home. ►

4 DISCUSS YOUR PROJECT

It is always useful to be prepared when visiting your local flooring retailer. Start by providing a rough guide of the room shape and measurements. Be sure to bring your shortlist of chosen designs, including shade name and number.

PICTURE IT

FLOORCARE

We want your Camaro Rigid Core floor to look its best for many years to come and to help you achieve this we have laid out the following floorcare guidelines. Camaro Rigid Core does not harbour dust mites or bacteria making it ideal for the home environment.

Every design in the Camaro Rigid Core collection features a polyurethane reinforcement (PUR) surface treatment to provide protection against everyday wear. We do however propose the following floorcare guidelines to help you keep your floor looking its best.

Initial Clean

We recommend you sweep or vacuum to prevent loose dirt or grit from scratching the floor. Polishing your floor can also be beneficial to help prevent slight surface scratches and to provide further protection.

Day to day cleaning

Regularly sweep or vacuum your floor to remove loose dirt, grit or dust. It's important to use clean mops and neutral cleaning solutions to regularly clean your floor. You should always dilute the floor cleanser to the manufacturer's instructions.

Please ensure you mop your floor evenly and collect any excess liquid in a mop bucket. Rinse the floor with clean water and allow to dry.

Regular cleaning is more beneficial to the floor covering and is more cost effective than occasional heavy cleaning.

Do:

- ✔ Install barrier mats at entrances to pick up grit and moisture. (Please note, some rubber-backed mats may discolour the floor)
- ✔ Ensure your furniture is fitted with protective pads where necessary to prevent scratches.
- ✔ Use protective cups under heavy furniture to prevent indentation.
- ✔ Remove spillages as quickly as possible to reduce risk of staining and causing slip hazards.
- ✔ Always use clean equipment when maintaining your floor.
- ✔ Regularly trim pets claws as these can cause fine scratches.

Don't:

- ✘ Use abrasive liquids or metal scouring pads as these can damage the floor.
- ✘ Clean the floor with solvents, caustic detergents, washing up liquids, soap powders, bleach, furniture polishes, petroleum based products, pine gels, stain removers or highly coloured products. Such products may make the floor slippery or cause permanent damage.
- ✘ Drag furniture with unprotected feet across the floor.

BEAUTIFULLY SUSTAINABLE

The increased awareness of sustainable development is a key aspect of manufacturing and as such, Camaro Rigid Core is 100% recyclable, contains an average of 15% recycled content and can be recycled through Polyflor's recycling scheme, Recofloor.

Polyflor floor coverings contain a combination of ingredients which are clean, natural and recycled for a more sustainable end product. The materials we use in our flooring are responsibly sourced and regularly audited for our BES 6001 certification.

Camaro Rigid Core is a sensible choice and contributes positively to indoor air comfort and quality, it is certified by Indoor Air Comfort Gold and FloorScore® as extremely low VOC. Additionally, Camaro Rigid Core is an interlocking product and as a result, requires no adhesive - its environmental impact is further reduced, benefitting air quality and recyclability.

Polyflor is certified to ISO 14001 and ISO 9001 ensuring the best environmental and quality management systems. What's more, Polyflor has achieved SA 8000 approved factory status, providing social accountability throughout our manufacturing processes.

Choose Polyflor for zero compromise on style, function and the environment.

For further details on Polyflor's achievements in areas such as recycling, energy reduction and waste avoidance visit polyflor.com/sustainability

INSTALLATION

To guide you through the process of installing Camaro Rigid Core Herringbone, we have created an instructional video led by an installation expert. Find our video online and discover top tips on how to lay Herringbone correctly.

visit: www.polyflor.com

Separate underlay is not required when installing Camaro Rigid Core thanks to the built-in acoustic backing. The IXPE foam acts as a shock absorber with footfall and helps to reduce impact sound transmitted through neighbouring rooms up to 18dB.

Our in depth step-by-step instructions for Plank, Tile and Herringbone can be found inside all Camaro Rigid Core boxes and online at www.polyflor.com

***We recommend Camaro Rigid Core is installed by a flooring professional.**

TECHNICAL SPECIFICATION

If you require any further information contact Polyflor Customer Technical Services on **+44 (0) 161 767 1912**, or email **tech@polyflor.com**

Plank & Tile Sizes	Size	Shades	Quantity per Box	Coverage per Box

Tile	304.8 x 609.6mm	4	12	2.22m ²

Product Format	Standard	Result
Gauge	ISO 24337 (EN 428)	5.5mm
Wear Layer	ISO 24340 (EN 429)	0.3mm
IXPE Acoustic Layer		1mm
Joint Profile		Vålinge 5G®
Total Weight	ISO 23997 (EN 430)	8570g/m ²
Finish		PUR

Performance Requirements	Standard	Result
General Performance	EN 16511	Conforms
Use Area	ISO 10874 (EN 685)	23, 31
Slip Resistance*	EN 13893 DIN 51130	Class DS R10
Abrasion Resistance	EN 15468 Annex A	≥7000 cycles
Reaction to Fire	EN 13501-1 CAN/ULC S102.2	Class Bfl-S1 FSV < 300; SDV < 500
Static Electrical Propensity	EN1815	≤2kV Classified as 'antistatic'
Residual Indentation	ISO 24343-1 (EN 433)	≤0.1mm

* For Safety flooring with sustainable slip resistance, refer to Polysafe ranges.

** Average test value from current production.

*** Resistant depending on concentration and time of exposure, in case of increased impact of oils, grease, acids and alkalis and other aggressive chemicals - please contact us.

- 1 Polyurethane Reinforcement (PUR)**
The PUR treatment supports a simple cleaning regime.
- 2 Clear Embossed Wear Layer**
The transparent, extremely dense layer is hard-wearing and protects the decoration of the product. This allows the surface embossing to create a highly authentic effect.
- 3 The Decoration Layer**
An innovative printing technique makes the high-clarity design film a true representation of natural materials.
- 4 Vinyl Layer**
A stable and durable layer enabling highly detailed emboss textures in the products surface.
- 5 SPC Rigid Core Layer**
The rigid core layer provides excellent dimensional stability and is a strong stable base for the innovative 5G locking mechanism which allows for quick and easy installation.
- 6 Backing Layer**
A durable layer with high resistance to pressure.
- 7 Acoustic Backing**
The pre-applied acoustic backing eliminates the need for a separate underlay system and helps reduce impact sound and make the floor softer and warm underfoot.

Castor Chair (continuous use)	ISO 4918 (EN 425)	Suitable
Impact Resistance	EN 13329 Annex F	Pass ≥1800mm
Dimensional Stability	ISO 23999 (EN 434)	≤0.1%**
