Dining room functionality

Original Danish design

Our furniture is based on ideas of simplicity, functionality and great details. One of the great details is that we only use sustainable wood. Another is our commitment to the original trade.

Throughout the years, Skovby has educated more than 250 men and women within the field of furniture production. With an inclusive staff policy, a flexible senior policy and a constant flow of around 10 apprentices, we carry on our core values while also investing in the future.

We are proud to say that we work hard and passionately each day to uphold the traditions of great Danish design. We still produce our furniture locally, in Denmark – strengthening and embracing the know-how and craftsmanship necessary for creating the ultimate Danish design pieces for our customers to enjoy for many years to come.

For more than 85 years, this has been our mission.

MADE IN DENMARK

Second generation V. Rasmussen

First generation and founder T. Rasmussen

Third generation

Skovby's story began in 1933 in a small rural village in Denmark. Back then a talented young cabinet-maker with big dreams started a small-scale furniture production in his mother's home in Skovby. His name was Thorvald Rasmussen – and this was the beginning of what would eventually become Skovby Møbelfabrik A/S.

For Thorvald – and later his son Villy – there were many obstacles, but also many triumphs along the way, and slowly but surely the company expanded and grew. Today Skovby is owned by third generation and grandsons Preben and Jørgen Rasmussen and the furniture is still designed and produced locally – in the heart of Denmark – in Skovby, where it all began.

Round dining tables with unique extension systems

YOUR CIRCLE

Skovby #33 | Expand your circle

Expand your circle

Make room for all your loved ones with the beautiful and iconic #33 dining table.

The table is known for its unique patented extension system. A turntable under the tabletop splits the tabletop in three in one synchronous move revealing three extension leaves stored in the base. When light pressure is applied, the extension leaves unfold and expand the circle of the tabletop to a seating capacity of 9 people.

THE MERRIER

Skovby #23/#26/#24/#27

Tables #23/#26
6 - 14 people

Tables #24/#27
8 - 20 people

The more the merrier

In the category of rectangular dining tables with traditional extension systems, you find our popular models #23, #24, #26 and #27. All tables are supplied with three extension leaves, which are stored conveniently under the tabletop. A fourth extension leaf is available separately for #23 and #26 as is a set consisting of three extra extension leaves for #24 and #27. Each inserted extension leaf extends the seating capacity by two seats.

Social seating

Scooch together on the sturdy and beautiful three-seater bench #833.

This versatile bench is crafted from solid wood and is as decorative as it is functional. Use it for seating, in the entry hall, by the foot of the bed, or as a display and storage piece – simply use your imagination.

Also available in a two-seater version #832.

Cushions available for additional purchase.

A dense forest of tall evergreen trees, likely spruce or fir, filling the frame. The trees are dark green and tightly packed, creating a textured background. The lighting is somewhat dim, suggesting a deep forest. Overlaid in the center is the text "Keeping it local" in a white, sans-serif font.

Keeping it local

We love wood

Wood is a living, lasting and everchanging material. And it is the core of everything we do.

We believe balance is key. And we believe in protecting and respecting nature and the forests that give life to our furniture. That is the reason why we produce our furniture locally – in our three Danish factories.

Why we only use wood from sustainable forests and utilise all excess wood. Why we invest in energy-efficient machinery and technology. And why we strive to always create high-quality pieces that last a lifetime and can be redeployed and recycled, again and again.

Because we care.

Skovby #11 | The more the merrier

Dining table #11 is smart in terms of both look and function.
The butterfly extension mechanism smoothly unfolds two hidden leaves, increasing the seating capacity from 6 to 12 people.
The sloping legs create a sharp profile and sculptural, modern appearance.

Rising to the occasion

By the simple push of a button you can transform this award-winning table #30 from a normal dining table, to a standing workstation or a low table for children's play and homework – and right back again.

Functionality is paramount, the possibilities are endless – and it is all wrapped up in a timeless, elegant design.

Be prepared for any situation and occasion with this extendable, height-adjustable multipurpose table #30. The table has rechargeable batteries and no cords for easy access and usability. It hides two extension leaves under the tabletop, which quickly and smoothly increases the seating capacity from 8 to 12 people. And with one push of a button the height can be adjusted from 64 to 110 cm.

Skovby #106 | The more the merrier

Bring nature into your home with the cool and modern plank table #106. The solid planks of the tabletop appear smooth yet rustic as they clearly show the life, quality and feel of the wood. The planks are carried by two movable trapeze-shaped frames providing a sturdy look and great flexibility.

The model is also available in the slightly shorter version #105.

Plank table #106 seats 6-10 people in its basic position and is extendable in the form of two extension leaves – one in each table end, providing extra seating for a total of 12-14 people.

The slightly shorter version of the model, #105, seats 6 people in its basic position and 10 people in extended form.

LAST THING

Skovby #130/131 | And one last thing

#130 Home desk
Black oak

Home desk #130 has a rounded steel underframe inspired by the style of the 100-year-old Bauhaus School of Design.

The simple and light design takes up minimal space in the home while still providing a practical workspace with pre-installed USB plug-ins, a spacious drawer and velcro straps for cords and cables.

Waste never looked so good

The idea and design for stool #840 sprang from pieces of leftover wood. Pieces cut from round and elliptical shaped tables are brought together to create a stackable and sustainable stool made entirely from leftover pieces from the production. Three joint pieces give the seat a dynamic and interesting pattern. Combined with the edgy legs the result is a unique, sculptural look.

Use the stool as extra seating, a side table, or simply a beautiful display piece.
